Partner Commissions & Funnel

Our approved partners get a standard 50% commission for successfully promoting any of our software or training products. This includes all related products and services that new customers choose to add to their purchase.

Partner Incentives & Bonuses:

During new product launches, Versions Update releases and periodic special offers we sometimes also offer performance based, goal orientated bonus opportunities. To qualify for these and get more details you need to be subscribed to our partners newsletter, the optin is here: <https://jv.mattg.com>

Bonus Pages:

We don't provide affiliate bonus pages as we've found that affiliates who create personalized bonuses for their lists always far outperform any boilerplate bonus page that is being used by everyone.

We encourage our partners to develop their own bonuses. In return we concentrate our energy and resources on the core product itself to make it a high value evergreen offer.

Longer Description:

Create Automated Webinars In Just ONE MINUTE.

With 46,000 affiliate products to choose from directly inside the application you will never be short of products to promote.

And you can also add any affiliate product from any network you like.

With 100,000s of webinars and videos you can make your offer truly unique.

You can select from over 100 free attendance bonuses for your viewers or add your own.

Simple Webinar Funnel Process:

Every stage of the webinar process is designed for the highest conversions, psychologically designed to move the subscriber to the next step to that final goal - your product sale!

Step #1: HIGH CONVERSION REGISTRATION

A friendly and encouraging REGISTRATION PAGE and pseudo two-step registration drives high conversions even for cold traffic. This is one of the best list building systems around. Making for a very low customer acquisition cost.

Step #2: DRIVE INSTANT ENGAGEMENT

Subscribers are taken to the thank you page and encouraged to view the webinar immediately. The page includes a "local time notice" which helps to drive the subscriber to VIEW NOW.

Step #3: INCREASE ANTICIPATION

Subscribers are then taken to a WEBINAR ACCESS page and an active timer counts them into the webinar. This increases anticipation.

Step #4: MAKE ATTENDEES STICK

Webinar attendees are encouraged to stay on the webinar with the promise of a special offer and free attendee bonus. A message tells the attendees to wait for the pop-up links.

Step #5: PROMOTE PAID PRODUCT & ADD URGENCY

A pop-up will appear at your chosen time to make your special paid offer, and a top banner countdown timer adds urgency to encourage a quick purchase and tip over the fence sitters - the special offer (product) link will disappear when the counter hits zero.

This gives you a great opportunity to “re-open” the offer in your email follow up series.

When the webinar finishes Easy Pro Webinars does not stop promoting - a large call to action message is posted on the screen and an animated background is used as a "disrupter" to grab the viewer attention.
