

# Spoilers for invincible

*(idk whos reading this)*

So when mac announced this i was just going to make 1 really shitty version of his oc but then after reading the rules i got an idea it mentioned that your drawing had to be unique and used the mark variants as an example which gave me this idea made in ms paint (if you couldn't tell i'm not the best at art) it took 9 days 1 day to make the background and boxes 7 days making all the variants and 1 day writing this i really enjoyed doing this as submitting this would be very very funny at least to me it is this is just an explanation to what i did it's based off of this panel from the invincible comics also because other people did their WOKE pronouns i also will be you can see them listed also there all pansexual if you couldn't tell

Cat mac (she/her) - the first one didn't really have an idea so i just started drawing shit ended up alright i guess even though the shirt sucks one of my least favorites

Minecraft mac (he/him) - i am MAC one of my favorites i love the face i gave him other than that yeah its a minecraft mac

Speedrun mac (any) - almost all the others took 5-10 minutes to draw (if were not counting looking at reference images and procrastinating) this one took 2 minutes because that's the entire point of him i threw so hard at the shirt which is why its so unfinished

Super buff angry mac (idk man that's what i called it when i made it) (he/them) - Idk why i called this one that but yeah i drew the arms first then just drew the rest there pants are peter griffin's idk this ones just weird

Totally not based of something im trying to memorize that i can't tell because i'm showing my friends this and they can't know what it is mac (she/them) - not based of anything at all very original totally trust me 10 brownie points if you can guess what this is based off of

Act mac (any) - this is one of the only ones that i didn't plan there's only like 3 other ones i didn't plan and now looking at it i probably subconsciously based it of the thumbnail for ACT so yeah i like this one

Psycho mac (he/him or she/her) - i like how i did the horns but hate how i did the hands which i spent most of my time on both of these things he also used to be candy corn colored but i changed it also because i gave her horns and a halo i colored him off of ddub because they both have horns and a halo and i was running out of ideas

Rule breaker (deez/nuts) - my favorite one it purposely breaks all the rules rule 1 and 2 don't keep it to close to the original and don't stray to far away from the original the head is just traced from macs oc and the body was supposed to be based off of this gartic phone image my friends

made but i ended up just making it a creeper rule 3 no nsfw thats why theres penis next to it that was my only idea rule 4 no multiple submissions thats why theres multiple of them

Hospitalized mac (they/them) - based of curly from mouth washing this one took the 2nd longest to make and it's one of my favorites not much else to say

Little mac (he/him) - my least favorite because i made him too small and too big so instead of having a really small mac or just a mac based of little mac i tried to do both i tried filling in the empty space with text and also made him stand on a table i don't like this one but i like how i did his hair

Gd mac (geometry/dash) - was the hardest to make by far took 90 minutes of messing with several objects and warping them until they looked just right most of the time was spent placing

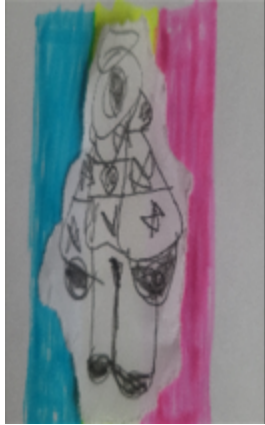

the blocks for the shirt warping shit and layering everything just right to make it look good and i did it personally i thought it was alright like but when i showed this to one of my friends he asked why i just copied and pasted a picture of his oc and i asked him where he saw this and pointed at this one that's like the proudest i've ever been in my life and now looking at it more other than the fact that some things aren't colored correctly it looks really good also i fucked up the flag background which is why he's facing right you can play the level here btw ID:118669533

Stand ready for mac (he/him) - this one's goofy as hell it's just traced conquest but its mac instead because i had no other ideas the text below him says stand ready for my arrival worm i just find this one really funny

Real mac (not fake) (he/them) - i made mac in the real world!!!! i spent most of my time on using the worst highlighters of all time to make the pansexual flag background but this one was really fun to make also the mac that i cut out was made on the back of my SAT admission ticket so that funny

Joyfull mac (she/her) - the last one i made kinda rushed and doesn't look how i want her too but it's too late now based of the joy monsters from lisa the painful i like her eye and that's about it

Barely mac mac (any) - so i took one thing from every sleepover charmified character but after i finished i realized that it was still pretty bland so i added 1 thing from every girls night character causing this monstrosity to be born yeah out of all of them this is probably the least mac

Mayonnaise mac (he/him) - this is the only one I didn't make All I did was clean it up a bit after importing it to paint so here's my friend's explanation: Found at the bottom of a Hellman's Mayonnaise bottle. Origin unknown, threat level moderate. Exposure to subject's presence for over ten minutes can cause symptoms such as: Headache, Nausea, Lose of consciousness, Loss Of Function, Becoming washed and even death. Subject simply

eats and sleeps, occasionally says the words "Well that was stupid." No meaning has yet to be extracted from this sentence. Eats anything. Clothes and skin made out of seemingly impenetrable material unknown to humanity. Not outwardly aggressive, though above symptoms can be fatal, it is unknown if this is intentional aggression at this time.

If i had to rank them it would be this

- 2 minecraft mac
- 3 hospitalized mac
- 4 gd mac
- 5 stand ready for my mac
- 6 ACT mac
- 7 real mac
