To Whom It May Concern,

It is my pleasure to write a letter of recommendation for Deca Architecture. They have assisted Willamina School District by completing a full Facility Assessment of all buildings in our District. This has allowed us to thoughtfully plan for maintenance and building upgrades moving into the future.

The Deca team excelled at meeting the deadlines posed by an accelerated schedule, including completing deliverables required for grant reimbursement by the Oregon Department of Education. We appreciated the high quality of work that Deca produced, with an excellent level of accuracy in their cost estimating work for building maintenance, repairs, and upgrades.

We found Deca to be knowledgeable about educational design and adept at navigating the challenges of preserving aging buildings. They were excellent communicators with all of our stakeholders, including administrators, faculty, and maintenance staff.

If you are looking for a team that knows and understands the challenges posed by assessing and upgrading existing facilities, I would not hesitate to recommend Deca Architecture as a collaborative partner for any District.

Sincerely,

Brent Murrell
Director of Communication and Safety
