

Video Ideas

A crowdsourced document of ideas for making videos in the classroom.

Next week, we're making videos to explain something about space. How could the videos be made? **Please add to the list:**

1. Live Action (@thisislamm)
2. Plasticine Animation (@thisislamm)
3. Explain Everything iPad app (@thisislamm)
4. Like a news broadcast.
5. Green Screen.
6. Use Keynote and make the presentation into a video.
7. Include some stills and use 'ken burns' effect (pan & zoom) (@theokl)
8. Use a screen capture tool (such as Jing) to record a short tutorial for people who don't know about space. Demonstrate how to go and find out about space using a computer. (@dughall)
9. imovie that includes pictures and videos from web (@SheliBB)
10. Puppet pals movie (I will add a link to one we made when I can find it) (@SheliBB)
11. Visualiser stop motion movies (will add link here too for example when I find it) (@sheliBB)
12. Windows movie-maker that incorporates videos/photos found on the web and a voiceover (@SheliBB)
13. Use of textease - very basic but you can animate the solar system and do a voiceover easily (@SheliBB)
14. Getting complex but achievable and useful: [Celtx ~ Collaborative \(script\) writing tools](#) (@timrylands)
15. Show me app - again very basic, but easy to use (@SheliBB)
16. [Screenchomp](#) could be a great way to record, plan, explain or explore an idea. (iPad) (@timrylands)
17. [Muvvee Cloud](#) is a quick alternative film/slideshow maker to [Animoto](#). (@timrylands)
18. Record video on top of pictures using Thinglink (@ICT_MrP)
19. Film someone writing on a whiteboard.
20. Screen capture whilst writing on a interactive board.
21. Create your TV studio / news reel etc with the Touchcast app (@ICTEvangelist)
22. Use the [Tellagami](#) app, available on iOS and Android, to create a narrated, animated presentation (@MrHarcombe)
23. Film children explaining and showing an idea or method (say, grid method). (@mrwaldram)
24. <http://www.freetech4teachers.com/2014/03/free-collaborative-video-creation-with.html> (@paulyb37)
25. Tellagami (@RAS1975)
