SYMPTOMS

SLEEP: Off and on, music seems to not help sometimes

EATING: Variable, 1-2x a day, sometimes not at all

ENERGY: 'Caffeine helps'

CONCENTRATION: Wholly concentrated when working. 'All over the place' when not working. Mind can wander when not actively

working.

INTERESTS/HOBBIES: Reading, writing, listening to music.

STRESS: Really nothing specific. Aside from the general stress caused by working at this Site.

GUILT: 'All the time. Anchorage. Leblanc' (Not being able to do anything as they died). Feels as if he could have helped, but did not try. Seems to stem from fear. Was 'frozen, unable to act.' Felt it would not have done any good due to Vo'lok's influence, as it may have led to his own death.

DESIRE TO HURT OTHERS/HOMICIDAL IDEATION: 'Not others, no. Hurting other Foundation personnel doesn't help anything.'

DESIRE TO HURT SELF/SUICIDAL IDEATION: 'I want it to end'. 'The music does not help anymore.' 'Quiet brings it all back.' He wants it to stop. Says the music stopped working approx. 2 days ago and is worsening. Feelings of guilt seem to return. Visions of corpses of those he's seen die, namely Leblanc.

BEHAVIORS

DRUG/SUBSTANCE USAGE: Drinking. Typically due to the above noted feelings. Not to a level that affects work. 3 drinks/day whiskey. Can increase if things are bad, decrease when things are better. Has been increasing exponentially.

LYING: Telling people he's fine. Doesn't want to bother people with his own issues.

DEFIANCE: 'Of course not.'

STEALING: 'No.'

DESTRUCTIVE TENDENCIES: Threw a chair.

VERBAL AGGRESSION: Has been yelling, 'going off on people who do not deserve it.' Seems to think he has a negative attitude towards people. Generally applied to everyone.

PHYSICAL AGGRESSION: Claims to have punched CMO Belial 2 days ago during altercation. {I believe this to be due to Belial restraining him when he pulled a weapon on himself}

SOCIAL RELATIONS

FRIENDS: Somewhat, doesn't speak to a lot of people. But there are some he prefers and some he does not.

COWORKERS: No hostility, can feel some friction with those that cause him more paperwork to deal with.

FAMILIAL RELATIONS

FAMILY: Cousin is doing alright, brother is affiliated with [REDACTED] {!}. He does not know of Paragon's existence, and would like to keep it that way.

PERSONAL THOUGHTS

MOOD: 'Not right in the head'. Still feels guilt more than anything, general unhappiness. As well as grief for 'a lot of people'.

GOALS: As of now, getting projects done. Not 100% sure other than that.

WORRIES: Not particularly, things either happen or they do not.

JUDGEMENT: Does not feel judged himself. Judges 'those that deserve it'. Those that cause the most problems deserve it, particularly D-Class, who cause the majority of his problems.
