

Home Access Center

Our district utilizes a product called [eSchoolPlus](#) as its student management system. Home Access Center is a portal for students and parents that allows for access to important information such as schedules, assignment grades, and progress reports.

In order to sign up for [Home Access Center](#), you must use the email address that the District has on file for you. If the District does not have an email address on file for you (or if you need to update it to a new address), you can contact your building's [Main Office](#) to correct it.

For all questions related to Home Access Center, please contact us at homeaccess@irvingtonschools.org.
