

MFW ECC & Apologia Zoology 3 Schedule *from Middle Beginnings*

Weeks	Country	MFW Science	Zoology 3 Lesson
Week 1 - 2	Introduction	Introduction	Lesson 1: Introduction: Animals of Day Six
Week 3 - 4	United States	Forests	Lesson 2: Carnivorous Mammals
Week 5 - 6	Mexico	Deserts	Lesson 10: Squamates
Week 7 - 8	Canada	General	Lesson 3: Caniforms Continued
Week 9 - 11	Brazil	Rain Forests	Lesson 4: Feliforms (Week 11 has 2 experiments in MFW)
Week 12 - 13	Norway	Northern Forests	Lesson 7: Rodentia and the Rest
Week 14 - 15	France	General	Lesson 12: Dinosaurs
Week 16 - 17	Germany	Rivers & Lakes	Lesson 11: Rest of Reptiles & Amphibians
Week 18 - 20	Kenya	Grasslands	Lesson 8: Ungulates
Week 21 - 22	Saudi Arabia	Ecology / Conservation	Lesson 9: Order Artiodactyla
Week 23 - 24	India	Mountains	Lesson 6: Primarily Primates
Week 25 - 26	China	General, Oceans	Lesson 14: Gastropods & Worms
Week 27 - 28	Japan	Oceans	We will visit an Aquarium (planning to study Whales / ocean animals)
Week 29 - 30	Russia	Arctic / Tundra	Lesson 13: Arthropods of the Land
Week 31 - 32	Australia	Australia & Coral Reefs	Lesson 5: Marsupials
Week 33 - 34	Antarctica	Antarctica	(planning to study Penguins & Seals)

This is our planned schedule that I was asked to share. I tried to match the animals in the zoology lessons to the region or ecosystem being studied in MFW. Some are obvious like Marsupials & Australia, others overlap and could be rearranged based on interest.

Example: Feliforms could be switched with Primates. Feliforms include both Rain Forest Cats / Mountain Cats, & Primates include both Rain Forest Monkeys / Mountain Gorillas. My daughter asked to study cats when we did the Rain Forest that is where I placed it.
