Transcript:
(00:01) the midterms. I hope you saw my video about a warning that President Trump must hear. It's on YouTube or it's on Substack. I just want to pick up where I left off in that warning for President Trump. I'm going to go deeper tonight than I did in that video. In that warning to President Trump, I told you something that most preachers will never tell you.
(00:33) That Yahweh, the God of heaven, raised up Donald Trump. I've said that so much that my voice is almost worn out from saying it. I've explained to you that God didn't do it because Donald Trump is perfect. Because he's not. He's not even holy, but he was raised up to position the nations for the last day. I want to encourage you before I continue, if you've not read my blog entitled Trump Versus the Nations, that may be one of the most important blogs I've ever written.
(01:18) You need to read it because that's why God raised up Donald Trump in the end times to realign all the nations against Jerusalem. [clears throat] And Donald Trump has fulfilled his mandate and his calling to protect Jerusalem. He has been a friend to Israel. And that's why God saved him from a bullet, from an impeachment, and from a stolen election because of these end time purposes.
(01:58) Number one, he moved the embassy of America to Jerusalem. He recognized the Goland Heights. He walked away from the Iran deal. He took out Solamini. He brokered the Abraham Accords. He has credit with God. He has done great things more than any other president for our brothers, the Jewish people. And when Persia, that ancient enemy of Jerusalem, modern-day Iran, when they would not stop with their nuclear ambitions, then President Trump sent bunker busting bombs that went below the mountains of Fordo.
(02:59) No president, I want to make that clear, has ever done more for Israel and Jerusalem than Donald Trump. I've said it and I would say it to his face that he has been Israel's friend. But I did give President Trump a warning. And tonight, the information I'm going to give you will support.
(03:28) I'm bringing you the receipts of what happens when presidents get laxidasical about Israel. I warned President Trump about three strikes that he has against him and I laid it out in my new book on the midterms. I'm not going to go over those tonight. three things that he has done recently that I believe caused an alarm to go across this nation Tuesday night.
(04:09) And I want to show you why. I'm not going to bring my feelings to you tonight. I'm going to bring you the receipts. Before we do, do you mind if I open up the oldest book? Do you mind if I bring you to the word of God for just a moment to the book of Joel? If you have a Bible, you're welcome to open it. At least write it down.
(04:40) The book of Joel, chapter 3, verse two. Would you read that with me tonight? I want to show you something. There's an ancient prophecy about our day. It says, "I will gather all nations and I'll bring them down to the valley of Jehoshaphat and I will plead with the nations for my people. I don't care. I don't care what your Christian church has taught you.
(05:18) You didn't replace anybody. You joined them. You didn't replace them. He said, "I will plead for my people and my heritage Israel whom they have scattered among the nations, and

they have parted my land." You don't have to be smart to know what Yahweh means by my land. He lays out the borders to Moses very clearly. I want you to read that last line.
(05:56) Dividing up my land, not their land, not the Jews land. One day you will figure out that that land over there is not Jewish land. It's God's land. And out of all the land on planet Earth, he chose the tithe of the world. At one time, before the continents were divided, the continents were all together.
(06:28) And in the dead center of it was the tithe, Jerusalem, Israel. that Yahweh said, "I am choosing the tithe, the tenth. I'm choosing the smallest part as mine." Just like when God gives you a dollar bill, he says 10 cents of it is mine. You can have the whole planet. I just I'm claiming that part as mine.
(07:03) And if you give it to me, I know that you're mine. that you honor me, that you love me. And so he said this about the land. There's no such thing as Jewish land. He said it's my land. He didn't say that it's land that you get to decide who it belongs to. It's my land. It's not America's land. It's not Britain's land. It's not Muslim land.
(07:33) It's not United Nation land. It's not European Union land. It's not the State Department's land. Yahweh, the God you claim to believe in, calls that land from the river to the sea mine. And then he says that he's going to gather together all the other nations and judge them for trying to divide that land up. Here's what God told Moses.
(08:05) Leviticus 25:23, "The land shall not be sold forever, for the land is mine." Yes. Just like all of my money belongs to God, but he only claims the first part as his separated unto him. That land of all the land of earth is separated and called holy. If you ever get that in your brain, you will understand we're not talking about Jews.
(08:44) We're talking about touching the tithe, being cursed by touching what God has called my land. He said to Moses, Leviticus 25:23, "Don't you ever sell this land, for the land is mine. You are just a stranger and a sojourer in the land." The land is mine. Israel could never sell it.
(09:21) And yet Washington DC thinks that they can divvy up this land at a negotiating table. Here's what Ezekiel says. Chapter 36:E5. which have appointed my land into their possession with the joy of all their heart with despiteful minds and you have cast my land out as prey. There it is again. My land. You see, there is no one on planet earth that needs to be deceived.
(10:04) You start divying up the land from the river to the sea and Yahweh keeps the record. I want you to understand tonight that God has called America, the house of Joseph, Manessa, and the state of Israel is the house of Judah. We are brothers. I want you to think about this now. That land was under Muslim rule during the great Ottoman Empire.
(10:42) The Ottoman Empire was so powerful and strong. And yet in 1948, that great empire, the Muslims that ruled that land lost it in World War One or two. One, yes, one. General Allen B from Great Britain brought this land and called the Jewish people back home. Now, I know some of y'all listen to your little podcasters that tell you that's not real Jews.
(11:17) If God himself brought the wrong people back to his land, then you can find me another God. Oh, perish the thought of such tom foolery. The sophistry of Satan has entered your mind. The contumalous lies of the parasitical ENEMY HAS INVADED YOUR THOUGHT PROCESSES. That's my land. And he said, "I PROMISED I WOULD CALL my people back to that land.
(11:53) " But before he did, he raised up the United States of America. Gave her the greatest MILITARY MIGHT IN ALL OF THE WORLD. WHY? because his people, his land would not be

able to protect themselves. So when God protects his land, he raises up the military power that will do it on his behalf. America has a calling, a manifest destiny. And if we don't do it, President Trump, we will be judged more strictly than any other nation on earth.
(12:35) Now, I want to prove it to you. Follow me carefully. There's a man by the name of William Koig. I had no idea when I made my video three days ago warning President Trump and I preached that to my church. I had never heard of this man. But a dear sister that follows me by the name of Anna Soladuk, she made me aware of this man and a book he wrote.
(13:04) And my world has been jolted after reading that book because William Koig was saying when President Bush was in office, what I'm saying today, and I had no idea this man existed, knew nothing about him. William Koenig is a White House correspondent. He is a man that has sat in the briefing room and he has set with president after president, administration after administration.
(13:40) When America pressures Israel to give up any of her land, William Koig shows up. I thank God for this man. I've invited him on my podcast because I want to hear from him. But I found out that anytime America begins to pressure Israel to give up any part of her land, that God has always sent judgment to America. I didn't know this.
(14:17) I didn't realize this, but I have the receipts for you tonight. I'm going to show you what happened last Tuesday night. Your president got a wakeup call that he better listen to. 1991, George H. W. Bush and Muel Gorbachoff, they call a peace conference in Madrid, Spain. You're about to learn things tonight you need to know.
(14:45) That conference was called Land for Peace. Hold on, Mr. President. God said, ' That's my land, and you better not part my land. The concept was this, that Israel would trade away Yahweh's land for peace. October the 30th, 1991 is when that happened. Land for peace. October 30th, 1991. Do you know what happened that day? Have you ever watched a movie called The Perfect Storm? The God that rides on the wind.
(15:31) That very same day, there was a storm off of America's coast. And the weather service gave it a name, the perfect storm. It sank the ship called the Andrea Gale. And where did the waves of that storm go? Where? I thought you would never ask. The waves of that storm went to Kenna Bumpport, Maine, to a place called Walker's Point.
(16:08) The president HW Bush, his home. The windows were blown out of his home that day and water came through George HW BUSH'S HOME ON THE VERY DAY that he parted Yahweh's land. While he was drawing lines on a map in Madrid, Spain, the Atlantic Ocean, was walking through his bedroom in Maine at Walker's Point.
(16:48) America, you are the brother of Judah. You will be judged every time you try to part God's land. >> That was receipt number one. I HAVEN'T EVEN started 10 months later. Let's move forward now because time is of the essence. Those Madrid talks, they moved to American soil. August 24th, 1992, negotiators sat down in Washington DC to talk about parting up Yahweh's land.
(17:27) dividing it up. On that very same day, Hurricane Andrew slams into South Florida, category sinko. Homestead, Florida flattened. At that time, it was the most expensive natural disaster in the history of the United States. on the day they opened up talks in Washington about parting Yahweh's land.
(18:03) Receipt number three, August 2005, Israel's government gives up Gaza. Israel's government pulls every Jewish family off of Yahweh's land to give it to Muslim Islamic fools.

Every family moved out of their homes, displaced and four communities in northern Samaria. Families who had built their lives there. Imagine you watching me right now, FORCED TO LEAVE YOUR LAND, YOUR HOME. YOU BUILT THERE.
(18:46) YOU RAISED YOUR CHILDREN THERE. But now you've GOT TO LEAVE TO GIVE GOD'S LAND TO IDIOTS. Ishmamail's children. These people buried their dead there, carried out of their houses by Israeli soldiers. And do you know where the president of the United States was that day? George W. Bush. He was applauding. That was Monday, August 22nd, 2005.
(19:23) President George W. Bush looked at the camera and called it a historic step. And he announced 50 million American dollars for new housing in Gaza now that the Jews were gone. And that same week that Jewish houses in Gaza were being torn down on August 23rd, he says it again, President Bush, congratulations the prime minister on making a very tough decision.
(20:00) On that Tuesday, the last two communities were cleared out. Hamesh and Senure. every family displaced from their homes. And when that last family was removed from God's land, a tropical depression formed in the Bahamas, and the next day it was given a name, Katrina. 6 days later, August 29th, that Katrina came ashore in the town where I live.
(20:44) It made landfall in Hancock County, Mississippi. The worst storm surge in American history. 28 feet of water came in waveand. Waveand where I live was erased. Bay St. LOUIS WAS GUTTED. THE water crossed over Interstate 10. THE EYE OF THE STORM CAME UP the street that I live on. In Gaza, security teams are removing families from God's land.
(21:20) As Israeli soldiers went house to house, whereas in New Orleans, Louisiana, that same day, soldiers went house to house removing families. 9,000 Jews were evicted. And on that same day, a million Americans were evicted. Israeli families were scattered into tents and hotels. And the American families were SCATTERED TO THE HOUSTON ASTRODOME WITH 30,000 Americans.
(21:58) The settlers called it the worst abandonment of Jews in Israel history. And the Louisiana parish president went on MEET THE PRESS AND CALLED KATRINA the worst abandonment of Americans on American soil. Same day, same day, the nation, America that applauded pulling Israeli families out of their homes was within days pulling their own families off of rooftops.
(22:36) And George W. Bush received a letter from Mr. Koig warning him why that judgment came. I love how people listen to this and doubt me. Well, you know the weather is the weather. Well, you didn't think that whenever Jesus walked on the water and told, "Peace, be still." You better make up your mind what you believe and what god you believe in.
(23:06) Cuz the ONE I BELIEVE IN RIDES ON THE WIND AND THE WAVE. Are you ready for receipt number four? May 19th, 2011, Barack Hussein Obama stood at the State Department and tells the world that Israel's border should go back to the 1967 lines, the indefensible lines, the lines that put Jerusalem's old city back on the other side of a fence.
(23:38) The next day, Benjamin Netanyahu sits in the Oval Office and tells him no to his face. And two days after Barack tried to park my land on May the 22nd, 2011, an EF5 tornado tore a mile wide hole through Joplain, Missouri. 158 souls. The deadliest single tornado in America in more than 60 years. Receipt number five, 2017, Donald Trump's first term.
(24:18) Jared Kushner. They're in the region between Jerusalem and Ramla and they're working on what they call the ultimate deal. August 24th, they meet with Mahmud Abbas to part the land. On August 25th, the next day, Hurricane Harvey makes landfall in Texas. 60 ines of rain,

Houston underwater, one of the most expensive storms in AMERICAN HISTORY. AND 12 DAYS LATER, MR.
(24:54) William Koenig sat down and wrote a letter. September the 6th, 2017, William Koenig wrote a letter to President Donald Trump. What was in the subject line? Israel's covenant land. He delivered that letter personally to President Trump with a copy of his book. He gave a copy to Vice President Mike Pence, Secretary of State Rex Tillerson, Chief of Staff John Kelly, and Jared Kishner, the man redrawing the map.
(25:33) In that letter, he honored President Trump for being a friend to Israel. And he told President Trump, "I've watched this pattern for 26 years. 127 events he wrote down and I've got all those events. I just don't have time to give them to you tonight. And he asked President Trump to reconsider, do not sponsor dividing that land.
(26:04) Mr. Koig had already warned George W. Bush. He warned Barack Obama. And in March of 2020, this man published an article with this headline. President Trump has done more for Israel than all OTHER PRESIDENTS COMBINED. BUT PRESIDENT TRUMP, YOU MUST BE WARNED. But President Trump didn't stop. and through the first term right up to 2020, peace for prosperity, the plan that drew a Palestinian state on a covenant map.
(26:42) And finally, summer 2025, Donald Trump's back in the White House, and Mr. Koenig took Michelle Bachmann and more than a thousand faith leaders from all 50 states and they went and warned President Trump. You don't know about this, but if you want to know what happened last Tuesday night, they warned President Trump to resist any proposal, however it's repackaged, to ask Israel to surrender any land.
(27:21) He told American President Donald Trump, "America is only great when she's standing besides Israel. Not when she's redrawing maps, but when she's defending her." So, let me count it for you again tonight. A warning to George Bush. A warning to Barack Obama. A warning to President Trump in 2017. A warning in 2025.
(27:51) 35 years of warning. Nobody can say that they were not told. Now, before I go tonight, I want you to hear with your own ears why I'm sounding this alarm. Please listen. When you look at 185 and you go up to three and a half four dollars, still lower than Biden, lower than Obama, but the war was blamed for that. And they didn't like the war.
(28:23) I think mostly for that reason because I think everyone agrees that Iran cannot have a nuclear weapon and they will never have a nuclear weapon dislike. So you have that, you have the war itself, you have the gas prices, and I think those are the primary reasons. And >> couple days ago, your vice president, JD Vance, wrote a social media post where he says, "The reason we lost is the war," meaning Iran.
(28:55) And he said things in that post about Israel. So do you agree? You agree with his analysis? >> I don't disagree with it. One thing, [clears throat] >> did you know first, did you know he was going to write that post? >> Uh, he asked me, "What do I think?" I said, >> "Write what you write what you feel." >> Okay.
(29:10) So, but he said the one thing he left out >> is that I would say and maybe he wouldn't say it. I don't know. I never asked him really. >> But, uh, if you had it to do again, would you do it? And that's Iran. Would you go and attack Iran and take away their because we won that war. That war has been won. Uh, now they're withering away as a country and they'll come and they'll make a deal.

(29:34) The only thing I wish he would have said there, if he felt it, and you'd have to ask him about that, but if you had it to do again, would you do it? You know, he was part of a decision-making process. And my answer is an emphatic yes, because you can't let Iran have a nuclear weapon. I think historically this will be a very good decision.
(29:54) Is it a good decision for today and tomorrow? Maybe not. But I would, you know, I have to go with what's right for our country. If they had a nuclear weapon, you and I would not be speaking the way, oh, then I'd really be excoriated. If they had a nuclear weapon during my term, I would be excoriated, far worse. Without us, Israel wouldn't exist.
(30:14) Let me tell you, >> Israel, >> Mr. President, slight correction, and I know what you mean when you say that, but no, it's the other way around. You exist as president because Israel exists. He said something that I hope you all heard and I hope you truly grasp it. He said there's an extreme dislike for Israel in America. That's why I must speak.
(30:46) I must tell you the truth. President Trump knows that there is an extreme dislike for Israel raising up all over America. That's why there must be voices like mine that bring you the truth. You need to start listening to truth. Listen to me, my friends. Deception is everywhere. Elbridge Gary, that founding father said what Donald Trump just said.
(31:11) Donald Trump said, "Was it good in the short term?" No. But it will be good in the long term. And I want to remind all of my listeners tonight that America has been blessed. President Trump was blessed because of Genesis 12 and3. I will bless them that bless you and I will curse them that curse you. That promise was not written in Washington.
(31:49) It was not voted on in a midterm and it doesn't change because of the polling. The voices that took the Congress are now whispering in President Trump's ear. Israel cost you the election. And the biggest voice in his ear telling him that is just do it Vance. JD Vance. He is the one working behind the scenes and we must pray against the voice of deception.
(32:24) The president said September the 25th something he has to take back. I will not allow Israel to annex the West Bank. Yes, you will, Mr. President. You have no choice. Do you want to reverse what happened Tuesday night? Yes, you will. In October 25, he told Time magazine that Israel would lose all of its support from the United States if it moved forward. Correct that, Mr.
(32:56) President. February 26, he said, "I'm against annexation, Mr. President. That's Yahweh's land." September the 28th, America stands at the United Nations and says it again about the West Bank. But here's what they don't understand about the West Bank. That's not the West Bank. That's Shiloh, where the tabernacle of Yahweh stood for many years.
(33:27) What we're calling the West Bank, quit using that word, West Bank. Start calling it what it is, Shiloh. And guess what else is the West Bank? Hein. Hein is where Abraham bought a grave for his wife Sarah and paid full price at Hebrin. Guess what else the West Bank is? Bethl, where Jacob saw that ladder coming down from heaven.
(33:58) It's not the West Bank. It's the West Bank. It's Shiloh. It's Hebrin. It's Bethl. It's the very heartland of the covenant. And Mr. President, I know why you made those statements. You gave your word to Arab leaders to end a war and to hold the Abraham Accords together. But Joel did not say that Yahweh would judge only the nations that divide his land in a bad mood.
(34:29) He said he would plead with the nations. He would deal with them that part my land. Whether you do it on a map or at the United Nations, the land is still being parted. So tonight, I'm asking for you all to pray for our president. Our ministry is about to start a daily prayer

gathering and our ministry all around the world. We're going to be appointing 12 hours of the day to the 12 tribes of Israel.
(35:06) There will be constant prayer for the next two years for President Donald Trump to not hear the voice of deception, but for his heart to be clay in the hands of the Lord. Don't divide the land. We must defend it. God bless you. Thank you for watching me tonight. Good night, everybody. And may God bless these United States of America.
(35:34) [music] >> You can't find it in a bottle. You can't find it in a pill. The joy I found [music] I found on Calvar's Hill. You can't find it in a club or a honky tonk bar. You'll only find it on your knees crying, "Help me, Lord. Return back home. The father is away. [music] Try as you might, you'll only fail, [music] chasing joy down a broken trail.
(36:19) [music] You'll search high and low. [singing] You're wondering Rome, but at the end >> that makes me happy. >> And just all the
