CONNECTING TO ZOOM

This tutorial will help you to create your own Zoom account and test the audio and video of your virtual class.

1 -	Activate your Zoom account	1
2 -	Install the application Zoom	2
3 -	Test your virtual class	4
	3.1 - Manage your audio settings	5
	3.2 - Manage your video settings	5
4 -	Launch a virtual class via Google agenda	7
5 -	5 - Legal information and cookies	
	5.1 - Legal information	8
	5.2 - Managing cookies	9

1 - Activate your Zoom account

• Once you have set up your account, click on "Activate your Zoom account" in the email you received:

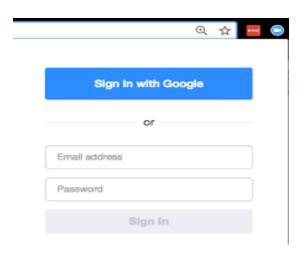

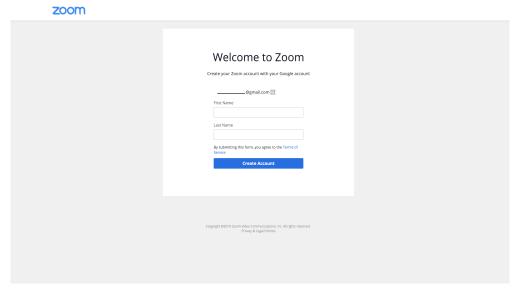

This work is provided under the Attribution 2.0 Generic license. For a copy of this license, please visit http://creativecommons.org/licenses/by/2.0/ or write to Creative Commons, PO Box 1866, Mountain View, CA 94042, USA.

16/03/2020 1/13

• Click on "Sign in with Google" and check that your Sciences Po email account is selected:

• Click on "Set up an account"

2 - Install the application Zoom

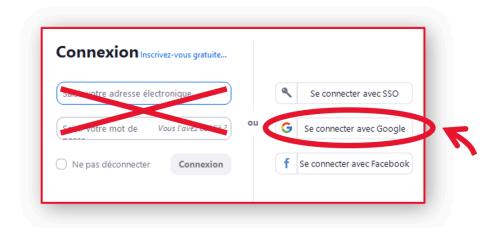

- If you are requested to, click on "Download and install Zoom". If not go to the <u>Zoom download page</u> (https://zoom.us/download), then click on "Download"
- Follow the steps to install the application. In the event of technical difficulties, contact the Helpdesk (sos@sciencespo.fr / 01 45 49 77 99)

16/03/2020 2/13

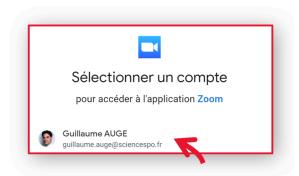

• Once installed, click on "Sign in" in the displayed window:

• Click on the button "Sign in with Google"

• Then select your Sciences Po account:

• If your Sciences Po account is not in the list, click on "Use another account", enter your Sciences Poe mail address, then your password

16/03/2020 3/13

• If the application Zoom Meetings is properly installed, it will suggest that you open it. Click on "Open Zoom Meetings":

Open Zoom?

https://zoom.us wants to open this application.

• The application Zoom Meetings will open.

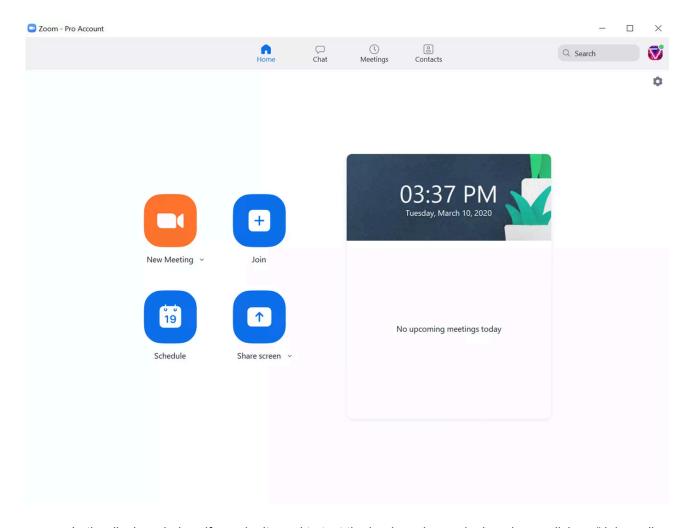

Your Sciences Po account is now associated with the Zoom application installed on your computer. You will now be automatically identified each time you launch the Zoom application on your computer.

To take part in a videoconference, simply click on the meeting link and open Zoom when the application prompts you to do so.

3 - Test your virtual class

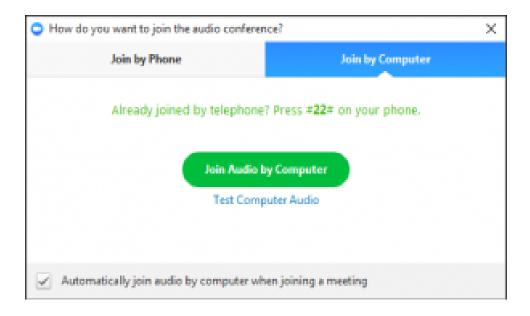

Once the application Zoom Meetings is launched, click on the button New meeting:

16/03/2020 4/13

• In the display window, if you don't need to test the loudspeaker and microphone, click on "Join audio by computer" to begin the class:

16/03/2020 5/13

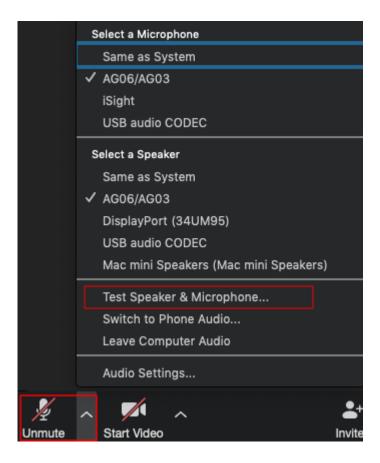

3.1 - Manage your audio settings

Once your class is launched, a toolbar is displayed at the bottom of the screen. It enables you to manage the incoming and outgoing sound settings:

Click on Mute/Activate to turn the sound on or off

• Click on the dropdown menu of the microphone to change the sound settings (microphone and audio output...)

16/03/2020 6/13

Should you encounter any difficulties, you can also do a sound test from this menu by clicking on "Test loudspeaker and microphone":

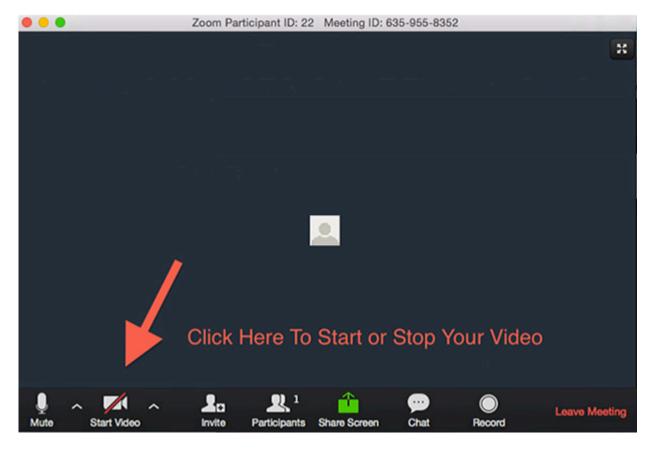

A series of three windows prompt you to test the sound input and output.

- Click on Yes to confirm at each step if the test is successful
- Click on Close at the end of the test

3.2 - Manage the video settings

• To activate the webcam video, click on "Start video" in the toolbar, bottom left

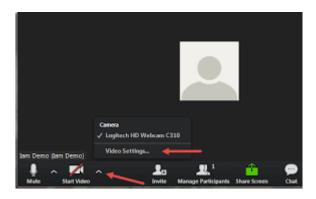

16/03/2020 7/13

Other video options are available. To open them, click on the dropdown menu of the camera

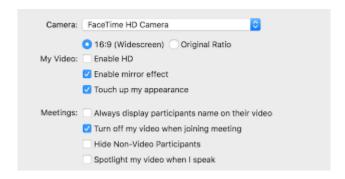

Then click on "Video settings..."

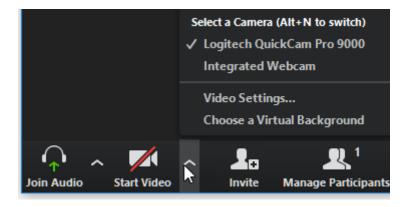

Please note: Make sure the option "Enable HD video" is deselected to avoid slowing down the web connection:

8/13 16/03/2020

You can also choose a virtual background which will enable you to be seen on the screen but will hide everything that is behind you.

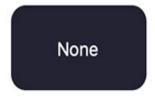

• Click on "Choose a virtual background"

• A window will open.

Choose a virtual background

• Select the background you prefer and close the window.

16/03/2020 9/13

4 - Launch a virtual class via Google agenda

You can launch your virtual class from your Google agenda if you have created an event beforehand in the form of a "Zoom meeting" (See section 3 of the tutorial

"ZOOM Tutorial 2 Inviting-your-students-to-the-virtual-classroom")

Once in your Google agenda, click on the event in question, then on "Join Zoom Meeting":

Important: in the displayed window, click on "Open Zoom" so that the video conference is launched on the Zoom application installed on your computer:

Note: if the application is not yet installed on your computer, please install it by referring to section 2 of this guide.

5 - Legal information and cookies

5.1 - Legal information

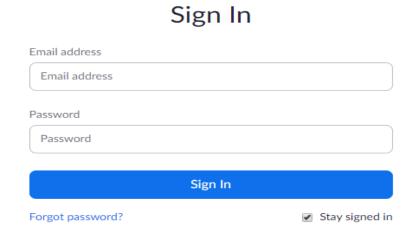

Please consult the document LEGAL INFORMATION AND COOKIES SETTINGS OF THE VISIOCONFERENCE TOOL ZOOM AT SCIENCES PO

16/03/2020 10/13

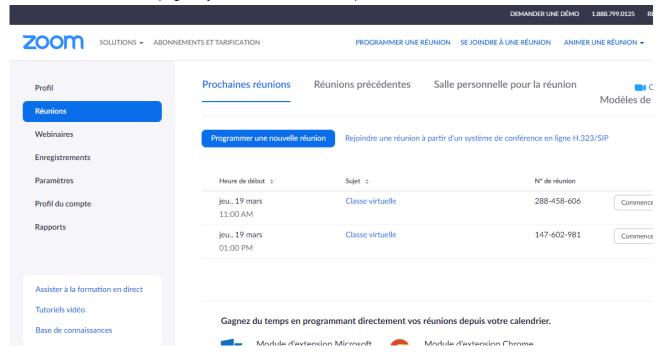

5.2 - Managing cookies

In order that only the cookies required for Zoom to function are installed,

• Go to the address https://sciencespo.zoom.us/signin then select your Sciences Po account:

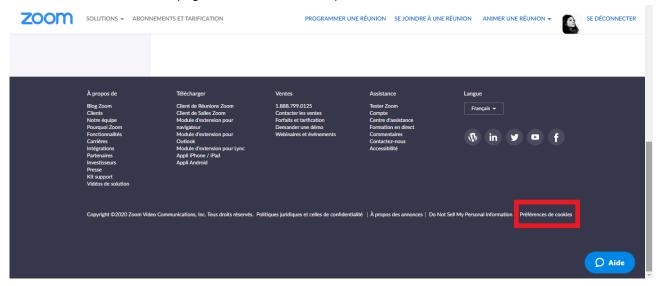

The web page of your Zoom account will open.

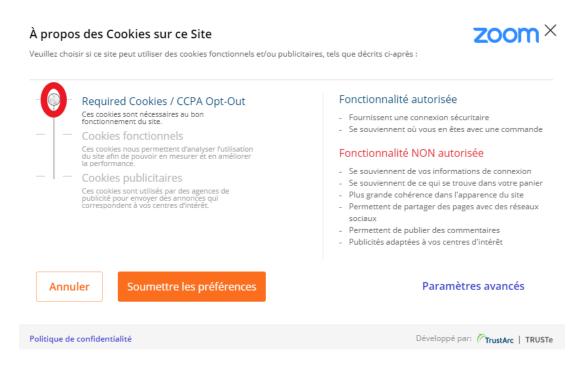

16/03/2020 11/13

• Go to the foot of the page and click on "Cookie preferences"

 A window will open. You can reduce the amount of cookies deposited on your work computer. The configuration recommended by Sciences Po is the following:

16/03/2020 12/13

 Click on the button "Save my preferences". Another window will open to confirm that your choices have been saved.

• Click on the button "Close".
