Getting the LENA App

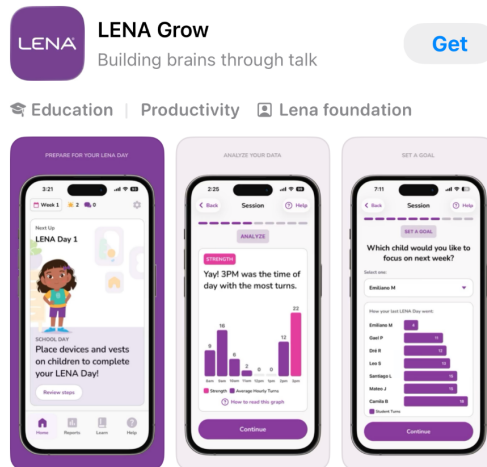

When teachers are added to LENA Online, they automatically receive an email with a link to set up their account and download the LENA App. If the app will be set up on a shared classroom device, it may be more convenient to go directly to Google Play or the App store to set it up.

To access the app without using the email link:

1. Open **Google Play** (Android) or the **App store** (Apple iOS) on the device the teacher will use for LENA Grow.

2. Search for “LENA Grow” (be sure to put in both words for the best search results).

3. Download and install the app.

4. **Login.** Only teachers who have already been added to LENA Online will be able to login to the app. If a teacher’s name and email have NOT been sent to LENA (laurencoper@lena.org) prior to logging in, they will not be able to access the app.
