

Jungbae an

date/time: 2021.7.10 9am-10:30am (seoul time)

via zoom

participants (존칭생략): 김대영, 김지인, 박용진, 박태하, 박현제, 안정배, 양선영, 윤진현, 전길남, 전성민, 정현주, 최덕재, 최윤아

A. 2021 kr4050 workshop review

- good content in presentations
- zoom problem in the early part. 2022 may be better as the meeting will be offline in jeju.
- limited audience due to online session in krnet

B. Future kr4050 Plan (Events, Workshop, Beyond (~2030s))

- need to secure speakers. company managers might not be available, in general.
- cybersecurity: important topic. need a speaker who can cover cybersecurity ecosystem properly.
- high tech ventures, digital services and web: might need to be coordinated on their coverages as they are overlapping each other.
- for web, 이승윤, 이강찬, 김병학 were recommended as speaker candidates.
- international collaboration, standardization, conferences, Internet exchange and peering: we may have them later than 2022.

C. 2022 kr4050 workshop;

C.1 Schedule (180 minutes with 8-9 talks)

C.2 Talk Candidates and review

C.2.1. Ventures

- needs to cover the timelines of both korea and u.s
- may consider to focus on dialpad/serome (with skype), daum (with ms/google), naver search (with google)
- would be good to have a page for kakao.
- would be good to have one-page comparison of the 1st and the 2nd venture boom.
- we may have another talk on high tech venture (a candidate: 이재웅 on email)

C.2.2. Security, Digital Service

- needs to keep the definition/coverage of topics by u.s.g. judicial committee provides with a good classification along EC's on Digital Markets Act.
- would be good to have a good timeline.

D. next meetings

2021.10.09 (three months later)

2022.01.08 or 2021.12
