I would like to express my support for the community of Beaver Creek, Yukon and White River First Nation to call upon the Yukon Government and RCMP to conduct a full investigation and seek a more just punishment for Rodney and Ekaterina Baker.

In a press release dated January 25, 2021, White River First Nation (WRFN) said this:

“WRFN is calling on the Yukon Government, as well as the RCMP, to pursue a full investigation and a more just punishment. It is important that the penalty seriously discourages any future similar behaviour. Great Canadian Gaming and these individuals require accountability for their actions, and they need to demonstrate more respect. There are hundreds of small Indigenous communities across Canada and WRFN does not want to see them experience a similar threat.”

The Baker's neglectful behaviour has put a small predominantly Indigenous community at risk and their actions have made a mockery of Yukon Government's COVID-19 regulations, protocols, and laws.

Sincerely,
