

## **Summary of the SAYO Data from the 2025-2026 School Year and the Summer of 2026 at our 21st Century Community Learning Center Sites**

The Survey of Academic and Youth Outcomes (SAYO) data collected during the 2025-2026 school year provides valuable insights into the academic and social-emotional development of students across our 21st CCLC schools. This summary highlights key findings from the Pre-SAYO administered in Fall 2024 and the Post-SAYO conducted in Spring 2026, along with summer 2026 data.

### **Overview of SAYO Data**

The SAYO data encompasses ratings from staff, teachers, and youth, focusing on changes in mean ratings across several domains, including academic subjects, engagement, communication, and critical thinking. The data also includes demographic information from enrollment files, allowing for a comprehensive analysis of student outcomes.

### **Key Findings**

#### **1. Academic Performance:**

- Across the schools, mean ratings in English Language Arts (ELA) showed varied results, with some schools reporting significant improvements while others remained stable.
- For instance, B.M.C. Durfee High School maintained a mean rating of 3.7 in ELA, indicating consistent performance, while Henry Lord Community School saw a notable increase of 22% in their ELA ratings.

#### **2. Engagement and Critical Thinking:**

- Teacher and staff ratings reflected positive changes in student engagement and critical thinking skills. For example, staff ratings at John J. Doran Community School indicated a 16% increase in engagement, showcasing effective teaching strategies.
- Matthew J. Kuss Middle School reported a 6% change in engagement, suggesting areas for further development. We are looking to expand our High-Quality Project Based Learning efforts.

### 3. Demographic Insights:

- The demographic data revealed a diverse student population across the schools, with varying levels of economic disadvantage and Multilingual Learners. This information is crucial for tailoring programs to meet the specific needs of different student groups.

### 4. Attendance Rates:

### Conclusion

The SAYO data from the 2025-2026 school year and the summer of 2026 underscores the importance of continuous assessment and adaptation of educational strategies to enhance student outcomes. While some schools demonstrated significant progress, others revealed areas needing attention. Ongoing analysis and targeted support will be essential in fostering an environment conducive to academic and social-emotional growth for all students.
