What we actually do

Advocacy

- Newsletter
- Our meeting
- Publications
 - Grey / white
 - Conference Journals (c.f. Research section)
- Presentations/Panelling
 - www.diapason.consulting/20210908
 - <https://www.gnuhealthcon.org/2021/contact.html> VI International GNU Health Conference Dec. 10 - 11
- Polls?
- Petitions?/Lobbying?
- Participation in roundtables and other consultative initiatives?
 - [FDA roundtable 14/10](https://www.fda.gov/medical-devices/workshops-conferences-medical-devices/virtual-public-workshop-transparency-artificial-intelligencemachine-learning-enabled-medical-devices)
<https://www.fda.gov/medical-devices/workshops-conferences-medical-devices/virtual-public-workshop-transparency-artificial-intelligencemachine-learning-enabled-medical-devices>

- <https://digital-strategy.ec.europa.eu/en/policies/regulatory-framework-a>

Education&Support

Host some tools to help projects?

QMS-type? (Redmine / Hippomake)

Training and education materials for projects

Database of regulations

This GDCS - turn that into a WIKI (The folks @GOSH had an interesting discussion about that) , I think the existing GDocs (SEP2021) could be made a wiki easily just need to sort out hosting.

Education, consulting and technical support for humanitarian orgs, nonprofits projects ?

Consulting for governmental authorities in LMICs?\

Example: Share this sort of scientific paper with the relevant teams :

- <https://www.sciencedirect.com/science/article/pii/S2589537021004028>

Platform for consultants to donate some of their time to the community in a more EFFICIENT manner? (Link with the paid subscription to receive notifications for consulting jobs with WHO UNICEF or something like that) . Investigate whether a formal structure could allow consultants to donate some time and this be counted as an in-nature donation from a tax perspective?

Research

<https://www.researchgate.net/project/The-necessary-evolution-of-the-health-technology-regulatory-framework>

A Zotero Library is maintained up to date (publicly accessible)

<https://www.zotero.org/groups/2543440/open-health-tech>

Ethics

www.diapason.consulting/20210908

Licensing/Liability/Legal aspects of Regulations

Check in Zotero

Robert/Public Inventions

Regulatory science

<https://www.fda.gov/media/130521/download> great stuff, very close to something i tried to pitch on Helpful Feed

Human-based research

Be a sort of CRO for the wellness/unregulated markets.

- With Fabio/Pascal/Bart for the GDPR/Citizen aspect
- Usability studies ? (Clearmask, Polyvent,
- afreitag33@gmail.com at Open Insulin was mentioning the concept of “community review board” or “community ethics committee”.

Meetings online ~ monthly or fortnightly from now on ?

Suggest alternating 1 internal strategic meeting with 1 examples/case studies meeting and alternating time zone to avoid any bias (current timing at 1245 UTC works from US east coast to AU but excludes NZ - West/Mid US and SouthAm :()

Try out NExtcloud / Jisti rather than zoom next time.

What tools we use

The GDOC stack as of today (August 13 2021) is
Convolutd (TBH I'm using it to be a website + wiki)
not open-source.

Fabio suggest using the Nextcloud / Only Office

<https://en.wikipedia.org/wiki/OnlyOffice>

<https://nextcloud.com/providers/>

<https://github.com/nextcloud/providers#providers>

PRicing info avail directly somewhere?

I'd really like to check out more about Mattermost / Matrix

<https://calendso.com/> as well

I want to share more about **redmine** too

GITLABL is of course a contender although not technically oipopensource

Last time Clubhouse was suggested but voted out.

I think a **Linkedin Group + Linkedin page** should be done ASAP.

<https://github.com/mastodon/mastodon> ?Twitter account ?

Open Miro Board?

OPen Automated Workflow tool like Zapier / calendly

<https://stevenvanbael.com/open-calendar-task-space-is-a-mess>

Could we find a self hosted url shortener ?THX Kelly Cheadle

11:01 PM Sep 21

Pierre- I found this open source URL shortener, though I haven't gotten to test it out (noticed you had a note in this doc asking about one) <https://shlink.io>
