Assessment Participation Exemption Request Fall Selection

Welcome to the Assessment Participation Exemption Request Form. As a guardian of a Denver Public Schools student, you can request to excuse your child from participating in the state/district assessments listed below which are scheduled to be administered this Fall. We are committed to doing what we can to ensure that your concerns are addressed.

We believe that assessments provide valuable information for parents and students on where students stand on the mastery of the standards, and whether or not they are on track to graduate, prepared for the 21st century. Assessments help us ensure that every child receives an equitable education and is on the path to success. It is a disadvantage for you and your child to lose access to such important information.

While we fully encourage parents to allow their children to test, we recognize some parents will still object and will want to exempt their children from this important activity. Please use this application to formally request that exemption for [state](#) and [district](#) administered tests.

This application will be available for use in the Fall and Spring, allowing parents to submit their requests for testing exemption in a school year as close to the start of the testing windows as possible. We believe that this strategy will help ensure that parents are making informed decisions after having the opportunity to review all information available about these important matters. [State](#) and [district](#) administered tests with multiple testing windows will be available for parents to make their decision in the Fall form.

Directions: Select a student from the student drop-down list and then select the available assessment(s). Once the assessment(s) have been selected, click the "Save Assessment Excuse Selections" button to save your selection(s).
