

Dear 2nd Grade Teachers,

We all seem to be spread out throughout the curriculum at this point, but regardless of where you are at with your students, I want to provide you with information for planning Unit 8- Equal Groups. In this unit students work with equal groups of objects to gain a foundation for multiplication. These emails can also be found on your grade level page on our SVUSD math website. Here is some information I pulled together for you to help you when you plan:

Before Teaching:

- Log into your account and watch 2.8 Unit Launch: Learning Narrative Video.
- Read the Full Unit Narrative, section narratives, and each lesson narrative.
- Review the End of Unit Assessment and Monitoring Sheets to see the learning expectations for students.
- Use the Pre-Unit Practice Problems to assess students' current understanding and address any unfinished learning from previous grades.
- Check out the Unit Planning Map to see a breakdown of materials by lesson.

Unit Layout:

Show Inspire Math Video the 1st time before Lesson 1. <i>*Tip: Read the Teaching Notes next to the video for instructions on how to use this video with your students.</i>	
Section A	Lessons 1-6 Focus: Odd and Even PLC Discussion: Lesson 3 Activity 2 End-of-Section Resources: Section A Student Summary, Practice Problems, & Section A Checkpoint
Section B	Lesson 7 (more lesson continued below) Focus: Rectangular Arrays
Show Inspire Math Video a 2nd time after Lesson 7.	
Section B (continued)	Lessons 8-10 (continued from above)

	Focus: Rectangular Arrays PLC Discussion: Lesson 9 Activity 1
Show Inspire Math Video a 3rd time after Lesson 10.	
Section B (continued)	Lessons 11-14 (continued from above) Focus: Rectangular Arrays
Review & Assessment Test Cover Sheet	1 day of review using the section practice problems (turn this into a game or have student complete collaboratively) 1 day of End-of-Unit Assessment (Test Cover Sheet) OR ½ day of review ½ day of testing for two days
