

R.A.I.S.A Incident 12/09 - Ethics Committee Report.

---

File Redacted to Clearance five Ethics Committee only.  
Unauthorized viewing may result in deployment of memetic agents  
and or Mobile Task Force Omega-1 'Laws Left Hand'.

Hence from Cairo's suggestion of decisions. The documentation hasn't been presented to RAISA. And is to be kept behind our archives inaccessible by RAISA

---

## *The Document reads*

*Hello. Today, on the 12th of September. An illegal Communications cutoff was conducted by RAISA targeting members of MTF Omega-1. And The Ethics Committee. Cutting off all of our communications between each other. And only leaving us with Clearance-3 Communications. After the Overseer council had noticed this incident. They had marched to Our Offices. With their entire MTF and assistants to mock us. This is unacceptable childish behaviour from such high ranking members of foundation command. After a heated argument between us and RAISA. We had regained our communications and SCIPnet access. Now. On the next day. Ethics Member Elijah Patel had initiated an emergency meeting between the committee. To Discuss what they shall do as the next move. After a heated argument lasting over an hour. Had the voting started. After a bit. Everyone at the desk and other members connected via satellite had decided. Action is to be taken against the overseers. This will be discussed later as to what it will be. For now. CAIRO. Cut off this report and save it.*

*Thank you.*

---

*Ethics Assistant James Kenraali*
