

Date: 10/4/19

Attendees: Reza, Archna, Bill, Quinn, Eelco, Ali, Jawad, Sam, DJ, Cary Cox, Alex, Animesh, Phil, Kenneth, Michael, JP Manuel

Agenda:

1. Kenneth: How do we join workstream efforts. Post table of active workstreams with points of contact for the workstreams. Contact the owner for meeting times/dates.
2. Archna: Amsterdam presenters Please send updated slides to Achna/Kelli ASAP
3. Archna: Organize ourselves around the March summit in San Jose.
 - a. Call for papers in November
 - b. Likely do a Dedicated ODSA workshop at the March summit.
 - c. Should we do face2face working Sessions at the Global Summit? (Sam - add that to the quarterly summit.)
 - d. Archna: do that on Day 0 (Tuesday) or Day 3 (Friday).
4. Feedback:
 - a. Bapi: Organizing around summits and deliverables makes sense. DJ: Agree - summit provided a specific goal for the PoC and galvanized efforts.
 - b. Set some goals for the march summit and work backwards.
5. Opens
 - a. Eelco: Can we make analogs to memory DIMMs at the chiplet level for some functions. Kenneth - how do we define power delivery etc? Is that in the scope of the ODSA. Bill - could be an item at a workshop. Eelco - starting point - create a list of likely chiplets - what functions are likely to move into chiplet formats. As an example, the pinouts on HBM are standard. Kenneth - takes a huge amount of work and collaboration to make it happen.
