### I

Be Images swiftly blend  
    Ond þa head snaps ahead  
        For an instant forget  
            þink nought ef þem  
                Rend þat scene in your head  
                    asa back turns toward þeir on next  
                        þey refocus  
                            so you must maintain motion  
                                Lessen noðing for noðing is stolen  
                                    only make sure to wander there once again in revolution

Forget for a second  
    soto enflame þe patience and friendship  
        þat'll command 'n' wrought þat next jubile session  
Wish only joybetides

Pough you'll desire an iceberg (as aside)  
    e blizzard  
        stopped time

Beg þeir better  
    yet þe same gal or guy

## II

All seems changless when we'rt lacking þe eye  
But in absence lives go by

Encounter unnumbered blessings 'nd coincidences  
Explore ta trails þou seeks to sightsee  
Howe'er once you've seen þem shelves at þe end of þe sphere  
For all þat mission & need from your ken  
Þat at þe End ya yell one perfect yes  
You'll wonder I bet  
as'da cones of light passby ann caress  
When ye trip þat fantastic pirouette  
Soarin' wið beau 'n' belle's around like a wheel ef flame

Lo sun y'all wonder I bet  
Ho ray blast at þa sunset  
You will ask te same guess

How are my best friends  
How fares mine moðer  
bro sis faðer 'n' pet

### III

Where resolves þy tred  
Is it back where lie lie or lie þem

If a circle breaks      It's a swirl  
Alðo e'en þe air      only goes around þe earð

Two florets beck  
þe one you picked

7 þe one you fed

Two trees as well  
þe one you fell

7 þe one þat's dead

Ne'erðeless e'en in deað  
its gnarls 'nd coiled boughs  
Shows þe seasons it felt  
ond as't slowly rends away  
þe saplings gaze  
Reading on þa bark þat yell  
þat yes earned not alone  
instead borne from þe whole greenwoods till
