

Dear PAC East Principals and AP Teachers,

The Pacific ISSs are excited to announce a collaborative two day AP Summit for AP teachers and one administrator from each high school January 17 and 18, 2018.

Ms. Rapp, the Pacific Area Director, and your superintendents are very excited about this opportunity for teachers, ISSs, and administrators to work collaboratively. Advanced Placement teachers will have the opportunity to reflect on their teaching practice, analyze AP Exam data, learn high-level teaching strategies, explore AP resources, and develop a goal and action plan for implementing new instructional practices and strategies in their courses in a collaborative environment. Teachers will work in groups with all AP teachers, like-course AP teachers, school administrators, and curricular ISSs across the Pacific Region. This is the first time in several years that AP teachers have had the opportunity to participate in cross-district professional development and collaboration.
