	- Orders and distributors <i>ok - I think, see pics below:</i> - Orders and fulfillment reports <i>ok</i> - Bulk coop <i>ok</i> - Packing reports <i>ok</i> - Customers and totals <i>ok</i> - Xero <i>ok</i> - Sales tax <i>ok</i>

Pass or Fail?	Customers page
	- Add customer <i>ok</i> - Edit customer <i>ok</i>

Pass or Fail?	Dashboard
<i>Pass</i>	<i>All good. Changing package worked smoothly</i>

Report: Orders and distributors

https://staging.openfoodfrance.org/admin/reports/orders_and_distributors

Why does order **#R387418680 (order_id 1017)** appear repeatedly (16 times, 4 items x 4...?) under the Orders and distributors report? See pic:

 Fricando - 1 Kg	€5.00	2 x none	€10.00
Shipping pick-up			€0.00

No tracking details provided.

Is this the expected behaviour for this report?

Release check

User facing changes 👁️

- Order number and date/time of completion are now displayed at the far right hand side of the order cycle customer totals report [#5325](#)
- Fixed issues around adding deleted variants to cart [#5361](#)
- Improved fatal error handling on CartController#populate endpoint [#5371](#)
- Hide order cycle selector if users needs to login or if user is not a customer of the shop.
- Improved the handling of a data inconsistent scenario in the orders edit page [#5350](#)
- Fixed a rendering problem in the shopfront Order cycle selector [#5343](#)
- Replace dropdown with text in Order cycle selector when there's only one Order cycle available for the user [#5348](#)
- Alert administrators when an order cycle form is unsaved [#5359](#)
- Show outstanding balance for each order on orders index page [#5341](#)
- Correct translations [#5329](#)
- Fixed double-rendering of products in unusual closed shopfront edge case [#5370](#)
- Improved design of closed shopfront messages (when login is required, when shop is for customers only and when shop is simply closed) [#5262](#)
- Default closed shop message will not show if there is a user defined message [#5262](#)
- Closed shop message will also show on the Home tab if shop is closed [#5262](#)
- Added message to the body of the page for user to select Order Cycle when there are multiple Order cycles available [#5262](#)
- Updated translations [#5349](#)
- Added completed_at date to Sales Tax reports and on Order And Distributor reports

Technical changes 🛠️

- Refactored truncate data rake task and default to 24 months instead of 3 [#4935](#)
- Improved performance in CartController#populate endpoint (add item to cart) [#5289](#)
- Bump ddtrace from 0.34.2 to 0.35.0 [#5364](#)
- Bump unicorn from 5.5.4 to 5.5.5 [#5312](#)
- Javascript unit tests can now run inside docker [#5309](#)
- Small improvement to sample data used for testing [#5351](#)
- Run delayed jobs in development with docker [#5333](#)
- Bump ddtrace from 0.35.0 to 0.35.1 [#5379](#)
- Added action caching to Api::OrderCycleController taxons and properties endpoints [#5318](#)
- Added class-based caching for large arrays of simple objects [#5319](#)

- Improved performance of enterprise serialization [#5295](#)
- We say goodbye to the spree test user spree@example.com and welcome the new test user ofn@example.com [#5223](#)
- The order_cycle_schedules join table has created_at and updated_at columns [#5332](#)
- Added 15-second caching on enterprise data in /shops and /shop pages [#5317](#)
