Online Market	
Online market will be main platform for the users, who want to buy or sell goods with the use of cryptocurrency.	
<ul style="list-style-type: none"> ■ Process. Seller is presenting own merchandise, estimating the price for it. Buyer is finding the merchandise and buying it for cryptocurrency (AIC). ■ Taxation. Taxation will happen accordingly to user country of location legislation. ■ Goods. All the goods will be divided on categories for more convenient search. ■ Price. Token rate will be fixed for the moment when buyer is agreeing to buy the good. Seller can designate fixed price or floating price, based on exchange (risk of price decrease or increase according to exchange adjustments should be taken into account). ■ Reviewing. Reviews System will be related for buyers same way as for sellers. ■ Blocking. Online market AKAIITO will categorically adhere to strict policy what comes to blocking of illegal goods and dishonourable users, what will give to other users 	

safety feeling.	
Principles and functioning	
<ul style="list-style-type: none"> ● Every user can create own account with seller cabinet for products exposure. ● Retail selling of units with the price till 10 AIC is allowed to everyone. ● For selling more expensive goods You need to improve Your rating by getting positive review/score after every confirmed and closed deal. Score should be not less than 7 points out of 10, only such level scores will be taken into account for general positive rating of the seller. Every 5 positive scores not less than 7 points are giving an opportunity to expose for selling more expensive goods, by principle 5 points=+5 AIC for maximum ● allowed price for the selling goods. ● Calculations will be done in AIC. For convenience there will be provided built-in calculator, which will show value of price in any other currency based on current exchange rate. ● By buying AIC tokens in initial sale, You can, not just maximally profitable to buy goods and services on AKAIITO platform, but as well to trade with AIC on exchange markets and gain the profit. ● Options of getting positive rating for an opportunity to sell more expensive goods: <ul style="list-style-type: none"> ● 1. Selling cheaper goods from the very beginning. ● 2. Selling more expensive goods, but with maximum allowed price point. Good price point can be 	

<ul style="list-style-type: none"> • a good surprise for the buyers, who will definitely reward You will good score and positive review. 	
Deal	
<p>Based on Smart contract</p> <ol style="list-style-type: none"> 1. Sellers and buyers are agreeing about the deals on AKAIITO platform with use of smart contract. 2. Buyer's tokens are booked in full value. 3. At first seller is getting tokens only for postal spendings (will be designated by seller based on location and specification of good). 4. Seller is sending delivery to buyer. 5. Buyer to be able to get delivery, should scan QR code, which will be given to him by postman or carrier. 6. After QR is scanned deal is closed and tokens are transferred to seller. <p>NB! If QR code won't be scanned, delivery will be send back to seller. In that case seller will get own product back and tokens for postal spending's (has been transferred earlier) plus compensation. Buyer will get left amount of tokens (excluding postal spending's and compensation for seller) back. During production principles of work can change with the purpose of making platform the most comfortable, safe and trustworthy.</p>	

<p>Online services</p>	
<p>Online market of services will be irreplaceable platform for those, who needs help of specialists and for those, who can provide this help.</p> <ul style="list-style-type: none"> ■ Service. The main idea of this part of AKAIITO: by services are meant all kind of works, starting from hairdresser and ending with lawyer. Thanks to this part of AKAIITO platform a lot of people will be able to find needed help in any field of life. ■ Categories. Services will be divided on categories for more convenient search. ■ Taxation. Taxation will happen accordingly to user country of location legislation. ■ Price. Token rate will be fixed for the moment when buyer is agreeing to buy the good. Seller can designate fixed price or floating price, based on exchange (risk of price decrease or increase according to exchange adjustments should be taken into account). ■ Reviewing. Reviews System will be related for users offering services same way as for users ordering services. ■ Blocking. Online market of services AKAIITO will categorically adhere to strict policy what comes to blocking of illegal services and dishonourable users, what will give to other users safety feeling 	

Online Map	
<ul style="list-style-type: none"> ■ Locations with possibility to pay with ■ cryptocurrency will be shown on the map in every ■ city around the world, where You will visit. ■ This part of AKAIITO platform will be including: ■ cafeterias/restaurants, cinemas, entertainment ■ places, as bowling and exit rooms, etc. ■ Depending on chosen category on the map will ■ appear location signs with address and list of ■ acceptable for pay cryptocurrencies. 	
<p>Hello! We are glad to welcome You to Akaiito official webpage. Surf around and if You need help or You have some questions, feel free to simply reply this message, we are online and ready to help!</p>	
Frequently Asked Questions	
What is the minimum investment?	
0,005 ETH, lower transactions will not count and you will not get any refund.	
What are the bonuses for investors?	
<p>For big investments will be used ladder system of bonuses. Bigger investment amount – bigger percent of ac-crued bonuses (bonuses are calculated from in-vestment amount):</p> <ul style="list-style-type: none"> • 10-50 ETH: bonus 1% • 51-100 ETH: bonus 2% • 100 – 150 ETH: bonus 3% 	

<ul style="list-style-type: none"> • 151 – 200 ETH: bonus 5% • 201 – 300 ETH: bonus 8% • 301 – 1000 ETH: bonus 10% • 1001 – 1500 ETH: bonus 15% • 1501 ETH and more : bonus 20% 	
Can US citizens buy AIC token?	

Yes, cause AIC token is utility token. If You are US citizen and not sure can You buy AIC token or not, then please consult with legal authorities of Your country.	
Can I send ETH from my exchange wallet?	
No! Do not send ETH from any exchange wallet as you may not be able to receive your AIC tokens.	
What currencies do you accept for payment during Pre-ICO and ICO	
Pre ICO: ETH ICO: ETH, BTC, LTC	
Future plans	
Will you implement bancor system?	
Yes, we are planning to implement bancor system in the future, cause it can simplify interaction between user and smart contract on platform.	
What is the future of your token?	
AIC is utility token, which has own value what will rise with system development and popularity. Using AIC token you can buy items, services and rent on Akaiito platform. Also you can trade it on exchange markets and earn profit.	
Are you going to be listed in exchanges?	
Yes, we will, after ICO. We will announce final list of exchanges when all final agreements will be reached.	

How are you going to be profitable? How are you going to generate the profit for Founders?	
Revenue for the founders will be 2% fee, which will be in use of Akaiito platform (3% of fee – 1% of cash back = 2% fee in the end)	
About Akaiito	
Can i pay on platform only witch AIC tokens?	
Yes, currency of payment will be AIC token. You can pay as well with other crypto currencies, they will be automatically transferred to AIC tokens on platform.	
Where Akaiito comes from?	
Akaiito comes from Estonia.	
In which country will be launched?	

Akaiito will be worldwide platform, it means that within the time we will enter all continents and countries where are living crypto holders.	
Will both parts of the deal be users or users to enterprise?	
Akaiito is C2C (customer to customer) business model, so there will be only user to user relations.	
What currencies do you accept for payment during PRE-ICO and ICO?	
Pre ICO: ETH ICO: All currencies (Fiat included)	ICO:
Who are your main competitors?	
So far we don't see competitors for Akaiito in crypto world, cause majority of projects are implementing only one part of Akaiito. We are more relating Akaiito with fiat	

platforms, such as: EBay, AirBnb, AliExpress, Car2Go, Fiverr.	
AIC Token	AIC Token
What will you do with unsold tokens?	
We wont have unsold tokens. The logic of our smart contract is following: When users are buying AIC token, it is getting created at the same time and as well transferred to buyer wallet.	
For what period of time teams part of tokens will be vested?	
Teams part (15%) will be vested for half a year.	
How can I contribute and buy your tokens?	
You should have Ethereum wallet with balance on it. In order to participate, you first have to accept the terms & conditions. After that you click on 'CONTRIBUTE'. Payment will be done using smart contract. You will get AIC to your wallet according to proper day price and conditions.	
What is your Tiker?
