18+ NSFW Work

Must be 18+ to order a commission from me.

(Because my work is also NSFW. Any miners, so please go away.)

My Art Style

My style is Semi Realistic + Anime/Cel Shaded/ Painted detail.

Commissioning

- Fill out a Commission form: There is a Form to fill out for each.
 - Colored in sketches / Sketches / Semi Renders / Cel shaded work.
 - Form must be filled out to gain a spot.
 - Form must be filled with all the info for the type of commission you're requesting. All info must be provided

so I can get a clear image of your commission idea. (just to make sure no mistakes are made too much.)

- Things to provide: (Name, Contact info, Payment Info, Commission Type, Simple Description of the Commission, Ref images ([links](#)), Other info asked within the Commission form.)
Warning: Please do not rush through the form, carefully fill out what info is being asked for, make sure to give the details that are needed. Do not give unnecessary info. Just sweet and simple unless it's a complex idea. If you need more confirmation you can contact me and ask about the idea. Also please provide any contact info where i can reach you and send image updates. Put in the correct spelling of any email or @username you have in use.

Payment

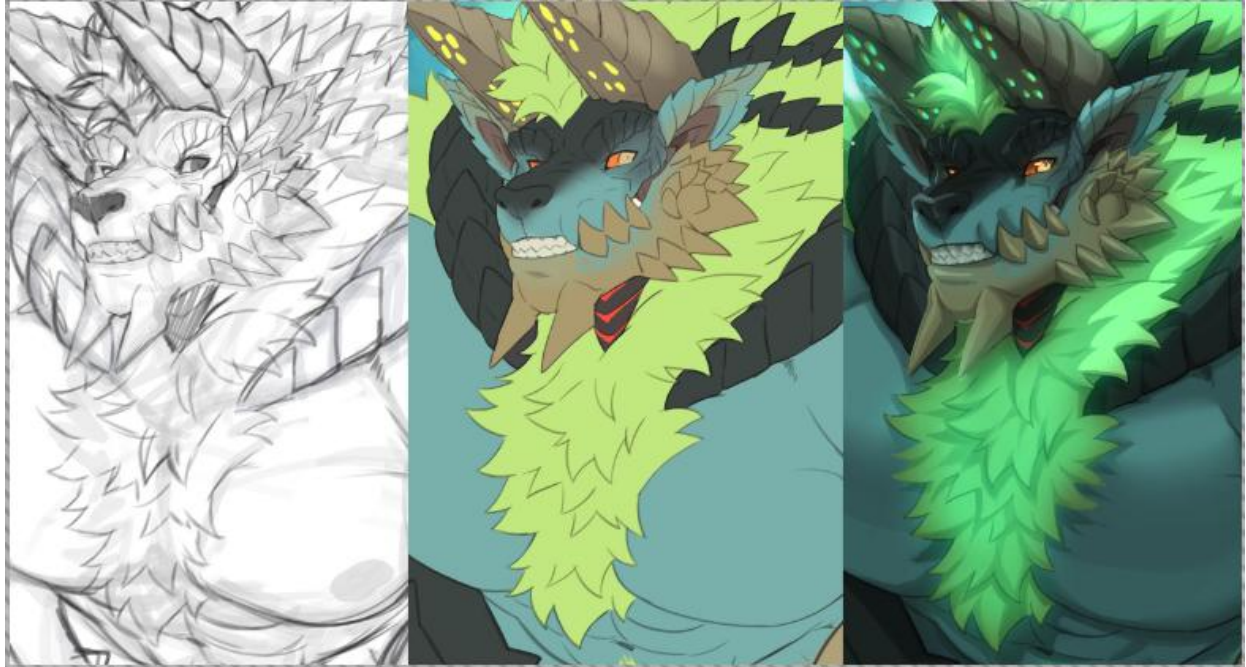

Provide email for [Paypal](#). I will confirm with you the total price for the commission you have ordered. A Invoice will be sent to the recommended method you use and provided for paying. Full payment is acquired and it must be paid upfront. [\(the prices will be added into the forms. They are also listed on the price guide, so the math is there to be done. \)](#)

Progress Phases

Sketch > Outline > Color > Finishing Touches (Detailing).

The Sketch, Color, and Final phases id like you the commissioner to pay close attention because they are the most important parts.

- Updates - each part I will update you on to make sure things look right on your character or the idea you're commissioning.
- [Sketch / Outline / Color / Final Touches](#)

WIP Queue List

My Queue list is on my Trello page, links will be provided on forms and docs. Each project will be listed from.. [Pending / Next up / Working On](#). ETA depends on the complexity of the commission(s). If it has a lot of full render quality and many characters it will take a long time to finish. Simple quality projects can be done easy and quick like colored sketches with one or two characters. ETA timing i can reach getting a project done 3 days or a week depending if updates go well.

If there is no answer back when updated i will place a pin on the commission project until a response is given by the commissioner.

- Schedule - Work Days *Mon-Fri* , off on weekends for break and personal work.

Additional Note:

IF YOU HAVE QUESTIONS OR ARE UNSURE ABOUT SOMETHING, Contact me! Editing can be done, just inform me before work is started, and when I'm in the sketching part (Please Keep This In Mind.)

Uploading Work

As long as a social media @ tag is provided in the form or by private message and the commissioner, you have given approval to post unless you want to keep the project private for reasons.

Refunds

Money can be returned if the commission hasn't been started, but keep in mind you **MUST** decide before any progress has been made on the commission. If you don't respond back to get your money back, go ghost, I am truly sorry.

- Copyright:

As long as I give you rights to said piece, it is all Yours! Just make sure to give credit to the artist (ME).

- Adoptables:

I will set up an auction to place any original character designs I make on sale. There will be a start bid to start off the bidding auction until the time frame setup comes to an end and the person with the highest price is the winner. An auto buy option for a complete purchase of the character will be added to.

- Example: Starting Bid \$100 / Auto Buy \$500 until 3 days are up.
- Ref Sheet of the original character (front view, back view, profile bust, other details.)
- You will become the owner of said character, and Note these characters are to be used as a special character (Sona) for the

owner and not to be resold after purchase. I want these characters to have a good home as someone.
