

How to Draw an Animal Jam Otter

Step 1.

Draw the outline for the head and body.

Step 2.

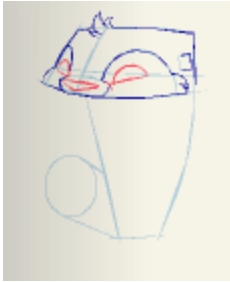

Draw an outline for the tail and then the "T" mark over the face so you know where to place your eyes, nose and mouth.

Step 3.

Sketch in the tuft of fur on top, the ear, nose and eye circles.

Step 4.

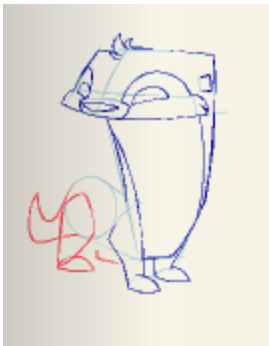

Draw the center of the nose and the actual eyes.

Step 5.

Begin to sketch the body by drawing the front two paws and neck.

Step 6.

Draw in the two hind legs and the tail. Erase any stray marks that may be left over from any previous steps.

Step 7.

Sketch a few last details like the center of the eyes, the whiskers, the toes, underbelly and the bottom of the tail.

Step 8.

Erase any stray lines remaining. Your otter should be complete!

Color in your otter with crayons or markers to add some personality! Be creative!
