

## Amazigh

The Amazigh is a light breed from the Maghreb in North Africa. These horses descend from Berber horses of the region used by indigenous people thousands of years ago.

### Conformation

- Their heads are refined with a broad forehead. Their necks tie in low to deep bodies with medium-wide chests, well-sprung ribs. Round hindquarters with long muscling, short backs. Their legs are proportionate to their body, with large bones and joints. Hooves should be well-shaped and hard.
- Colors - Black | Bay | Gray | Chestnut | Dun | Grullo | Roan | Pinto
