DIGESTION TASK

Create a ThingLink that identifies and defines the function of the following organs in the digestive system. You need to create your own drawing in Explain Everything or SketchPad, upload that to the camera roll, then take the picture from the camera roll and import it into the ThingLink app. Once you have a finalized diagram, generate a QR code (www.qrstuff.com) to access the ThingLink diagram. Post the QR code with your names and system chosen on your class board at the Pit Stop.

Digestive
mouth, epiglottis, esophagus, liver, stomach, pancreas, gall bladder, large intestine, small intestine
