The Piece Of Information That Made Me Rich !

Hi I am Michael and I am going to share with you my story from broke to rich in one year.

Last year, when I was still in High-School, my parents struggled a lot with money.

I didn't like that because we never had financial problems but, what my father did was horrible...

My father tried his luck at and lost all his life savings, that destroyed us and I knew that I have to do something.

I have tried to get multiple job's but it didn't work out for me.

I have ended up losing lots of money trying to find a way to MAKE money, and one day I have found this...

It was a man talking on his podcast by the name of Andrew Tate .

He had this podcast named « Why are you not Rich ? », so I clicked on the podcast and said to myself

« All I have to lose is time so it better be worth it »

That Podcast has opened my eyes and made me realize that everything is a lie.

I have learned so much from this man in 1 hour and that ONE information is what made me make the change.

1 Year Later after here I am buying my parents a new house in Dubai, after I made my first 2 Million Dollars.

I have never been happier before, I am so grateful to have found this guy, I am so happy that I saw his podcast and to this day I ask myself

« What if I ignored that podcast ? Where on earth were I be able to get that ONE information I needed ? »
