202 MUST Vice Chancellor Junior Engineer Academy Edition

The Office of the Vice Chancellor at the Malawi University of Science and Technology (MUST), the African Drone and Data Academy (ADDA) with sponsorship from UNICEF, and the MUST Institute of Industrial Research and Innovation (MIIRI) are collaborating on an initiative called the MUST Vice Chancellor's Young Engineer Fellowship Program. This exclusive program is designed to ignite the curiosity and potential of young innovators in Science, Technology, Engineering and Innovation. The program aims to provide a platform for talented young minds to nurture their interest in various engineering disciplines and develop the skills necessary to become the innovators of tomorrow.

ADDA normally offers training in drone and data technology to young Africans aged between 18 and 24 years. Most of these youths are either university students or would have graduated from university at a bachelor's level. However, UNICEF and MUST are proponents of the fact that 21st Century skills in drone and data innovations should be imparted to youths at a very early age to stir interest in the field. This is why ADDA, in collaboration with MIIRI, has introduced the African Drone and Data Junior Academy under the MUST Vice Chancellor's Young Engineer Fellowship.

Program Highlights:

1 week program running from the 18th - 22nd of August, 2025 filled with:

- Hands-on Labs: Practical workshops with the chance to work with real engineering tools and technologies under the guidance of experienced instructors.
- Guest Lectures: Interact with industry experts and renowned engineers who will share their insights, experiences, and success stories.

Eligibility Criteria:

- Age: Participants must be between the ages of 12 and 17 years old.
- Educational Background: Students from all educational backgrounds are welcome to apply. A passion for engineering and a keen interest in learning is essential

How to Apply: To be considered for the Junior Engineers Academy, interested students are required to submit the following by Wednesday, 12th of August, 2025, 11:59 AM CAT.

- A completed online application Form: Application Link Here

APPLICATION FORM LINK: https://forms.gle/YUcF1kQiZFb1qUbt6

Shortlisted candidates will be notified on their successful application and next steps.

Program Fee: The participation fee is fully sponsored, covering all logistical support and access to teaching and learning materials. The program will take place at the MUST campus in Thyolo.

Join us at the 2025 Edition of the MUST Vice Chancellor Junior Engineers Academy and let us embark on a transformative journey together. Unleash your engineering potential and pave the way for a rewarding career in this dynamic field!

The Academy programming is conceptualized on the premise of Social Purpose and Contract with a clear roadmap for MUST's purpose and responsibilities as a people's university.
