

The first link is the background and the 2nd link is the about me background the rest are pics to add your info on such as a Tip menu, rules, bio etc you can also put gif urls. I suggest uploading pics to <http://tinypic.com/> the links are small and easy to use. You are looking for <http://www.colleenpencil.net/images/1171593939/original.jpg> replace that link with yours. At the bottom will be some websites that can help out. If you need to take out a picture or add one this is the code

```
<br /><br target="_blank" rel="nofollow" />
```

I suggest playing around with the code it is pretty easy to get once you start working with it and if you have used MYSPACE you know how the code works

```

<http://fixmyhtml.com/>

<https://codepen.io/pen/?editors=1000> <lets you work on it with a live view no refreshing

https://www.w3schools.com/colors/colors_picker.asp

When you want to change colors you are looking for the RGB numbers they look like (0,0,0)
Just do a find for words like URL or IMG to make it easier to scan through code
