

SI: Revolutionize your reach

Hi <name>,

So I have been looking for ways my friend can lose weight fast at home,
And as I was walking past the calisthenics park.. I overheard them comparing
transformation time

And they mentioned your name...

So when I got home I looked into you,

I like the way that you give free advice

AND talking about what could have benefited you like in your latest video on
beginners' mistakes on the fat loss journey. We are missing content like yours in
this space.

I like the message that you sent with your brand, so I would like you to have this
"Burst" method lead generator,

It takes advantage of the length of content based on the attention span of
consumers.

I have it sitting in my drafts so you should take it and do with it as you will.

Should I send it over right away or later on?

Regards,
