

TRIP TO GERMANY

In our school we are participating in a project called Comenius Project. In this project there are 4 schools from different countries: Spain, Italy, Germany and Turkey. In the project we have to do some exchanges and we did the first trip to Germany on the week from 18th to 22nd of February 2013. Now we are going to explain what we did this week in Germany.

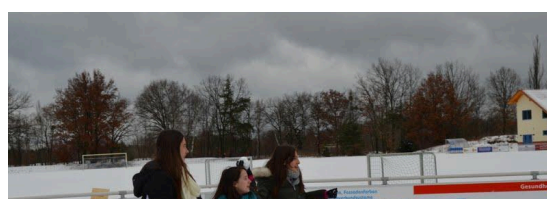

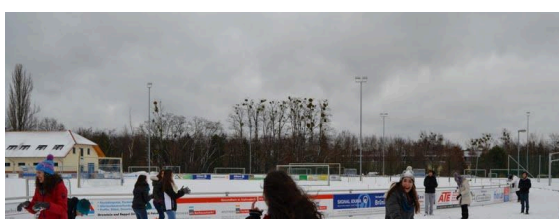

Monday 18th

At 8 o'clock we were in front of our school, we went to **Barcelona airport** by minibus. When we were there we had breakfast and then we took the plane. We had a problem because there was a strike of the airplane company, Iberia. We were lucky because we didn't have any important problem. When we arrived at Berlin we took the train to Teltow, the town where the school is. but there was fire in the rails and we had to change our train and take a bus, We had to wait half an hour and it was very cold. Finally the families and the teachers came to the bus stop and we could go with our host families to their houses.

Tuesday 19th

We woke up at 6:30, we had breakfast and at 8 o'clock we met the other people in the school. There they gave us some biscuits and after that some German students made a guided tour of their old school. Their gym was in the new school which is still under construction and we had to move there by bus. When we arrived, we changed our shoes and **we played basketball in wheelchairs**. We stopped for lunch and when we finished we did **a snow battle with the Italian students**. After that, we played a basketball match with wheelchair. It was a great experience to know the feelings of the disabled people. In the afternoon, we went with the families to some places, some of us went shopping, others went site seeing... At eight o'clock most of us had dinner and at 21:30 we went to bed.

Wednesday 20th

We woke up at the same hour as Tuesday. At 8 o'clock we were at the club. Some people did presentations about different buildings in Teltow and how they are adapted to disabled people. Later, a woman presented a computer program whose aim was to teach the people who can't hear or see, to communicate to other people, because now they learn some words, but they don't know their meaning. The woman played a video to learn the seasons in sign language, we could see some deaf children singing a song. After lunch, we designed a logo for the Comenius project in international groups.

Thursday 21st

On Thursday we visited a school for disabled people. Then we went to Berlin. We had lunch at McDonalds and after that we went to a shopping centre and there we could buy some presents for the family then we went to visit the holocaust. In the evening we went to Teltow and he had dinner all together at the club, the parents and the teachers prepared the food. It was a very nice farewell party.

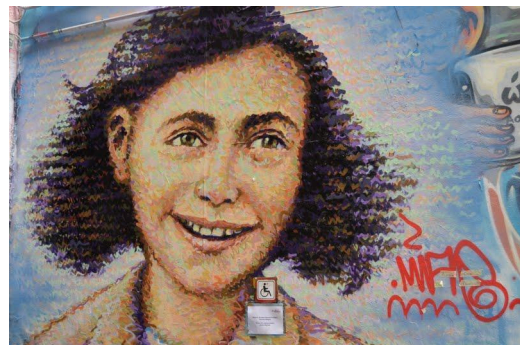

Friday 22nd

We went to Berlin, we visited a synagogue and Anna Frank's house. After that we went to Alexander Platz, we had lunch there and we could go shopping. The teachers called us saying that the plane was leaving to Barcelona at 15:30, we only had 45 minutes!

We went very fast to the airport, but we couldn't arrive. We missed the plane...

Finally we could leave from Germany on Saturday.
