Classroom Expectations

Mr. Holden's CORE FOUR:

1. **Be respectful.** This applies to me, your fellow classmates, and other faculty/staff. It's very simple...if you want respect, then you must give it in return.
2. **Be responsible.** You are the key to your own success. Class tardiness, late homework, and excuses are NOT good habits to make for yourself. Take ownership and responsibility for your actions and for your own learning. Set your expectations high for yourself because I certainly will.
3. **Be prepared.** Make sure you come prepared to class EVERY DAY. No excuses. No exceptions.
4. **Be kind.** No bullying, harassment, or rude behavior of any sort will be tolerated. Treat others the same way you want to be treated.

Classroom Policies

Late Work

If an assignment is late, 10% will be taken off each subsequent day as a consequence. Late is late, whether it is 10 minutes, 10 hours, or 10 days. If you are sick, homework will be due the following class day.

Plagiarism/Cheating

I have a zero tolerance policy for cheating and plagiarism (copying published work).

Cheating and plagiarism will both result in a zero on the assignment and immediate administrative action. No exceptions. This rule encompasses all work assigned, including homework (whether you are the one copying or the one providing the copy), labs, quizzes, and exams. If you are not sure if you are plagiarizing, ask me before the due date and I will be happy to help you.

Other Important Information

Proper safety and behavior is expected. The materials/supplies you are working with are EXPENSIVE. That being said, **if students break materials/equipment or are caught removing materials from the classroom that they shouldn't be taking, students will be responsible for paying for replacement materials.**

Course Schedule

***The schedule below is tentative and I reserve the right to make changes as needed.

<p>Week 1 6/13 6/14 6/15 6/16</p>	<p>Syllabus/Pre-Test/Introduction Lecture Osteology Lecture/Review Slide Deck Bone Identification Lab Bone Battleship Review</p>	<p>Assignment #1: Bone Review WS Packet (due on 6/16)</p>
