THE WOODS

Cannabis Flower

Cannabis flower is available in different strains, package sizes, cannabinoid profiles, terpene combinations, and brand tiers. Customers can compare standard options with premium cannabis and carefully selected flower products from licensed producers.

Product labels provide regulated information, but individual experiences can vary. Staff can explain available product details without guaranteeing specific effects.

Cannabis Pre-Rolls

Pre-rolls provide a ready-made flower format that requires less preparation than loose cannabis. Available choices may include single pre-rolls, multi-packs, infused varieties, and premium options.

Cannabis Edibles

Cannabis edibles may include gummies, chocolates, chews, and other ingestible formats. Each regulated product includes labelled THC or CBD content, package information, and consumption guidance.

Edibles generally have a slower onset than inhaled cannabis. Customers should follow package instructions and avoid taking additional servings too quickly.

Cannabis Beverages

Cannabis beverages provide a drinkable alternative to smoking or vaping. Selection may vary by brand, flavour, cannabinoid profile, and serving size.

Cannabis Concentrates and Extracts

Concentrates and extracts are processed cannabis formats that may contain higher cannabinoid levels. These products are generally more appropriate for experienced consumers who understand responsible dosing and handling.
