### Headline:

Strengthening youth participation in the COP30 Action Agenda

### Outcome to be announced/launched:

This initiative aims to enhance meaningful youth engagement in the COP30 Action Agenda. Through a collaborative process, we are mapping youth-led organizations already contributing to the Agenda and identifying opportunities to deepen their participation in shaping and implementing climate solutions.

The event will serve as a space for dialogue between youth organizations and the COP30 Action Agenda team, fostering intergenerational exchange, collaboration, and alignment of efforts.

By connecting local and global youth initiatives, the session will highlight existing contributions and co-design mechanisms to ensure youth perspectives are reflected across the thematic areas of the Action Agenda. The outcomes will contribute to a more inclusive and representative process leading to COP30 and beyond.

### Expected Outcomes:

1. Showcase the Youth Mutirão, illustrating how youth-led initiatives are contributing to COP30 priorities.
