Organized by the No 2 APEC Climate Bloc:

## How to Say No to APEC in SF

Asia Pacific Economic Cooperation (APEC) is an international forum of 21 member economies. The true objective of APEC is to advance US imperialist economic & political interests within the region, and implement neoliberal trade liberalization through the Indo-Pacific Economic Framework (IPEF). This will result in intensifying exploitation and increased hardship for workers, peasants, and oppressed people across the region, and worsening crisis & environmental disasters in oppressed nations - all for corporate profit.

We are inviting labor, diaspora, frontline communities, and climate justice activists to get trained, mobilize, and organize around to demand the following:

- End Climate Pollution.
- Globalize Climate Justice.
- Stop Trade Attacks on Climate Action.

Get trained up  
to join us in the streets and take action for a better world and climate.

**What**  
Trainings will take participants through many of the strategies, tools, and considerations of direct action, including power and privilege, de-escalation, blockades, legal, direct action organizing models, and the opportunity to form affinity groups.

**When**  
Various dates in October and November

**Where**  
San Francisco + East Bay

SUBJECT: November 15th: Don't Trade Away Our Climate Future! Resist APEC in San Francisco

ALT SUBJECT: November 15th: Pledge to Resist Biden and APEC's Corporate Climate Agenda in San Francisco!

Hey [xxxx]-

This November in San Francisco, the United States and 20 countries are convening the Asia-Pacific Economic Cooperation (APEC) Forum. It'll feature both a CEO summit with over 1200 global corporate CEOs (including the CEOs of Exxon, Chevron, Citibank, various Big Tech companies) and 21 heads of state summit that includes U.S. President Joe Biden, President Xi Jinping of China, Prime Minister Narendra Modi of India, and President Ferdinand Marcos Jr. of the Philippines.

Officials in San Francisco have dubbed it the "*Super Bowl of World Economies*." But it's more of a Super Bowl of corporate lobbyists and authoritarian governments.

APEC will have major impacts on the climate crisis, the global economy, human rights, worker rights and more for decades to come. Meanwhile, as corporate CEOs and lobbyists are keynoting panels with world leaders, the people have been completely shut out of these discussions. Furthermore, APEC will only greenwash the climate catastrophe we are facing and will do nothing to phase us out of an economy based on fossil fuels.

### [Can you pledge to resist APEC's summit of corporate CEOs and world leaders on November 15th?](#)

There is a long history of mass resistance to the corporate state — from the Battle in Seattle to the anti-war shutdown of San Francisco in 2003 to Trump's 2017 inauguration— where many have put their bodies on the line to stop corporate globalization, war and environmental disaster. Local Bay Area climate justice organizers are part of a large coalition of labor, trade, diaspora, student, local communities and climate justice groups organizing saying NO to APEC's corporate agenda.

**In an act of global solidarity, as part of that history of mass resistance, we will take mass direct action at the APEC CEO Summit in San Francisco on November 15th**

**But to do that, we need YOU to join us.**

### [Can you pledge to resist APEC's corporate agenda on November 15th?](#)

In solidarity, [group name]
