

Satan's Tongue, Longsword +2

(by Bill Schwartz (Urklore the Iron - Leader of Anime Adventurers): [urklore@tiac.net](mailto:urklore@tiac.net), from the "Gallery of Magical Blades, V5.0" by Christopher A. Brooks)

The blade is unlike any that one has seen. It is wholly black, a black so dense that it appears entirely separate from the hilt, like a tear through which one would glimpse the nightmare depths of space. A sword made of the essence of evil!

This blade is a longsword +2 that functions as a [Sword of Life Stealing](#) and a Thirteen Lives Stealer! It steals a level when a hit of natural 19 is scored, and it kills on a natural 20.
