MAIN TEXT

LETTER TO EDITOR

Letters to the Editor should provide concise scientific comments, critiques, discussions, or responses concerning articles published in Meditory or other issues relevant to medical laboratory science. The letter should present a focused argument supported by appropriate scientific evidence and should be written in a professional and constructive manner. Letters commenting on a previously published article should clearly identify and cite the article being discussed. The recommended length is 500–1,500 words.

CONFLICT OF INTEREST

All financial, commercial or other relationships that might be perceived by the academic community as representing a potential conflict of interest must be disclosed. If no such relationship exists, authors will be asked to confirm the following statement:

"The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.".

AUTOR CONTRIBUTIONS

The Author Contributions section is mandatory for all articles, including articles by sole authors. If an appropriate statement is not provided on submission, a standard one will be inserted during the production process. The Author Contributions statement must describe the contributions of individual authors referred to by their initials and, in doing so, all authors agree to be accountable for the content of the work.

ACKNOWLEDGMENTS

This is a short text to acknowledge the contributions of specific colleagues, institutions, or agencies that aided the efforts of the authors. Acknowledgements should be placed at the end of the article before the references. List here those individuals who provided help during the research such as providing language help, writing assistance or proof reading the article and others.

FUNDING

Authors are required to disclose all sources of financial support for the research, authorship, and/or publication of this article. Please indicate whether your research received any funding, and provide the name of the funding agency and the grant number (if applicable).

Example:
"This research was funded by the Ministry of Health of the Republic of Indonesia under Grant No. HK.02.02/5/1234/2025."

If no specific funding was received, please state:
"This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors."

DECLARATION OF ARTIFICIAL INTELLIGENCE USE

Authors must disclose any use of artificial intelligence (AI)-assisted tools in the preparation of this manuscript. Please specify the name and version of the AI tool, as well as how it was used (e.g., for language editing, idea generation, data analysis, or figure creation).

Example:
"The authors used ChatGPT (OpenAI, version GPT-5) to assist in improving the language and grammar of the manuscript. The authors reviewed and verified the content to ensure accuracy and integrity."

If no AI tools were used, please state:
"No artificial intelligence (AI) tools were used in the preparation of this manuscript."

REFERENCES

References come from primary sources (scientific articles, theses, theses, dissertations). Specifically for scientific articles, there are at least (electronic) scientific journal articles with active links (DOI or URL). All citations referred to in the manuscript must be written in the bibliography so that a reference manager is needed. The minimum literature used in the manuscript is within 10 years when the research was conducted. References and bibliographies using Mendeley with Vancover style.
