

Privacy Policy for Quick Escape

Effective Date: [2025-02-09]

No Data Collection

Quick Escape does not collect, store, or share any personal data, browsing history, or user activity. The only information saved is the user-defined redirect URL, which is stored locally in Chrome's storage API and not transmitted externally.

No Third-Party Tracking

This extension does not use cookies, analytics, or third-party services to track or monitor users.

Security

All data remains within Chrome's built-in storage system, ensuring full privacy and security.

Contact
