# Other things Ms. Rozema would like to know about you...

What assumptions do teachers normally make about you?

Are these assumptions accurate?

If no, explain...

What are some things you think you might want to do after high school?

Are you blind? Do you actually need to be seated as close to the front board as possible to see and read the words?

Is there anyone else in this room right now that you do NOT ever want to sit by?

Can you give me a lil info about what the problem is?
