

## Summary

The RLBot Gauntlet Run is a fun, competitive challenge for RLBot developers

- Participating RLBots compete in a series of **Best-of-5** matches against the “**RLBot Elite 4**”
- Matches progress in a set order, until the bot either A: defeats all 4 Elites, or B: loses a match
- Bots gain and lose points based on goals scored, games won/loss, and matches won
- High scores are aggregated on a Skillquest-hosted leaderboard

*The starting RLBot Elite roster is*

1. **Tunnel Vision** 🕶️
2. **SaRcAsTiC tHwOmP :P** 🪨
3. **Cool Bot** 🧊
4. **Raisin Bran** 🥣

The roster will be rotated quarterly (at minimum), with a new selection drawn from top community bots, so be sure to check in regularly!

## Rules

Participants will run Best-of-5 matches against the Elite bots in order from 1-4

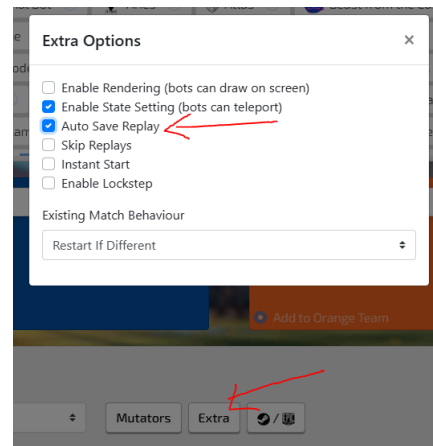

- Upon winning a 3rd game in any *match*, the match ends. The winning bot progresses to a match against the next Elite in the sequence
- Upon losing a 3rd game in any *match*, the match ends. The participant must stop and consider the run over.
- Upon winning the 4th and final match in the sequence, without having lost any matches during the run, a bot has defeated the RLBot Gauntlet Run!

Participants save replays for each game in their run using the RL *Auto Save Replay* feature in RLBot (see image, right)

For a run to count:

- The replays must be uploaded to [Ballchasing.com](https://ballchasing.com) (as a replay group)
- A link to the replay group must be submitted on Discord via the [RLBot Gauntlet Run Submission Channel](#)

If you have any questions about this process, please ask in the [Skillquest Community Discord Server!](#)

When replays are received, scores will be calculated as follows:

**Goal +10**  
**Opponent Goal -5**

**Save +10**  
**Game Win +20**

**Game Loss -10**  
**Match Win +30**

Bots are awarded an additional **+50** points for defeating the entire gauntlet!

## Leaderboard

Skillquest will host a publicly visible leaderboard displaying the names of all bots with submitted runs, and their top recorded run scores. The leaderboard will go live after the [RLBot Gauntlet Run Launch Event](#)
