

We are looking for Ontario Post Secondary educators to provide their take on one or two of the various activities throughout the modules. This will allow others to see what their peers would do with the activities.

The activities vary in how much work is involved. You don't need to have done the whole module to provide your take on an activity, but checking out the module overview and scenarios to get context may help frame your thoughts. See below for a list of the activities to see if one or two draw your interest! Questions? Email extend@ecampusontario.ca
