

All games use default difficulty settings! In MAME you can use WolfMAME .171, WolfMAME .106 or RetroUprising. NO OTHER VERSIONS OF MAME CAN BE USED!

Pnickies - pnickj - Settings: Difficulty - In Wolf .171 use Difficulty 3, In Wolf .106 use Difficulty 4. The difficulty labels were renumbered in .171 to be from 0-7 where before they went from 1-8. Pick the orange colored word choice when you start a game which is for a one player game

Block Hole - blockhl - Settings: Lives - 1, Difficulty - Normal. Recommend to not use Wolf .106 since the game occasionally spontaneously resets while you are playing in Wolf .106.

Cosmo Gang the Puzzle (US) - cgangpzi + namcoc69 - Settings: None. Special Rule: You can't start past level 10!

Chicken Shift -cshift- 3 lives

Logic Pro 2 (Japan) - logicpr2 - Settings: Play Time - Normal, Difficulty - Normal. You can select any character

Neo Bomberman - neobombe + neogeo - Use default settings (difficulty 4) and default bios (Europe MVS V2). We're playing single player mode instead of vs. mode.
