Full Stack Developer with a background in retail. Excellent problem solving and analytical skills. Recognized by co-workers for being hard-working, efficient, and detail oriented. Received a Full Stack Development Certificate from The University of Denver in February, 2022. Proficient with technologies such as jQuery, CSS, MongoDB, SQL, and Node.js. Passionate about developing applications with a focus on quality. Aim is to ensure usable applications that are well designed across the stack. Excited to solve any technical problems that may come up.

Technical Skills:

Languages and Databases: JavaScript (ES6), Python, HTML, CSS, MongoDB, MySQL

Libraries, Tools, and Frameworks: React.js, Node.js, Express.js, Flask, GraphQL, Redux, VSCode, AJAX, Heroku, jQuery, Bootstrap, JSON, Sequelize, Django

Other: Windows, Linux, Object Oriented Programming (OOP), Agile Methodologies, GitHub, git, Microsoft Office (Word, Excel, PowerPoint), Search Engine Optimization (SEO), Data Structures and Algorithms, Amazon Web Services (AWS)

Web Development Projects:

Kintsugi <https://github.com/carlincb/johnslist> | <https://the-kintsugi-app.herokuapp.com/>

An Ecommerce web application that allows users to list broken items and add broken items to a wishlist.

- Collaborated with a group of 6 developers to design the User Experience (UX), integrate and debug features, and deploy the application.
- Worked across the full stack of the application and communicated with other developers to resolve conflicts.
- Ensured created React components followed accessibility best practices.
- **Full Stack Developer:** Created the models, worked on multiple React components, worked on a mobile responsive CSS library, and debugged and integrated GraphQL routes.
- **Tools and Technologies:** MongoDB, Node.js, Express.js, GraphQL, React, CSS, HTML, Mongoose

TripShare <https://github.com/carlincb/TripShare> | <https://blooming-ridge-32748.herokuapp.com/>

The web application allows users to make travel blog posts and comment and upvote those posts

- Communicated and collaborated with 4 other developers to integrate features, design, develop, and deploy the application.
- Assisted and mentored other developers with problems they ran into and was able to apply problem solving skills to fix the problems.
- **Full Stack Developer:** Worked on the RESTful routes then integrated the features for commenting and upvoting on both the front end and back end.
- **Tools and Technologies:** HTML, CSS, JavaScript, jQuery, Bootstrap, Node.js, Handlebars, Express, Cloudinary, Sequelize, MySQL

Movie Picker <https://github.com/zachary-berdell-elliott/Watchr> | <https://zachary-berdell-elliott.github.io/Watchr/>

The web application allows users to enter a movie and find information and where they can stream the movie.

- Collaborated with a group of 5 developers to design, develop, debug, and deploy the application.
- Maintained a high-level of communication with coworkers while working 100% remote using Zoom, email, Slack messaging.
- Participated in requirements gathering, analysis, and specification, providing technical expertise and recommendations.
- **Front End Developer:** Developed the HTML for the application and integrated features such as a watchlist.
- **Tools and Technologies:** CSS, Bulma, AJAX, JavaScript, jQuery, HTML

Experience:

King Soopers, Greenwood Village, CO

December 2019 – July 2021

Courtesy Clerk

Performed multiple janitorial and customer service duties. Bagged groceries, collected shopping carts, worked as a cashier, performed general maintenance and upkeep of the store, cleaned up spills, cleaned bathrooms, swept, dusted, and mopped floors, performed price checks on items, returned unwanted items to shelves and displays, and emptied trash cans.

Key Accomplishments:

- Recognized as the most efficient and organized bagger and leading checkers.
- Trained and mentored multiple employees leading to longer tenure.
- Management's "go-to"; was able to multitask and adapt to where needed quickly.

Education:

Full Stack Development Certificate | University of Denver | August 2021 - February 2022

- A 24 week-intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node js, MySQL, MongoDB, GraphQL, Express, Handlebars.js, & React.js
