

Swirge Social

[Swirge.com](https://www.swirge.com) is the hub for the Swirge ecosystem, a decentralized platform combining social media, marketplace, and financial services. Launched in 2020, Swirge leverages blockchain technology to empower users with full control over their data, privacy, and financial interactions. The ecosystem includes Swirge Social, a decentralized social network; Swirge Marketplace for peer-to-peer transactions; and Swirge Finance for decentralized financial services.

Swirge emphasizes transparency, security, and user empowerment. Built on networks like Binance Smart Chain and Polygon, it features a native cryptocurrency, SWG, which facilitates activities across its platform. Over the years, Swirge has evolved into a comprehensive ecosystem aiming to decentralize online interactions
