

QR Code Generator Pro (“we,” “our,” or “the extension”) is a Chrome browser extension designed to help users quickly generate QR codes from text or URLs directly in their browser.

We value your privacy and are committed to ensuring that no personal data is collected, stored, or shared when you use our extension.

2. Information We Collect

We do **not** collect, store, or transmit any personally identifiable information (PII), browsing data, or user content.

Specifically:

-  No personal details (name, email, or address)
-  No browsing history or website content
-  No analytics or tracking tools
-  No cookies or third-party scripts

All QR code generation happens **locally within your browser**. The input you provide (text or URL) is processed on your device and never sent to any server.

3. Data Processing

All QR code creation and rendering are handled by a local, open-source JavaScript library included within the extension package.

No external requests or APIs are used. If you optionally use an online library (for example, from jsDelivr CDN), the library itself does **not** send any user data — it is only fetched once to enable QR code rendering.

4. Permissions

This extension does **not** require any special permissions beyond what is necessary to display the popup and generate QR codes.

It does **not** access your browsing history, tabs, or clipboard.

5. Offline Usage

QR Code Generator Pro is fully functional **offline**. You can use it without an internet connection, and your input data never leaves your browser environment.

6. Third-Party Services

We do not use, integrate with, or depend on any third-party analytics, advertising, or tracking services.

If an external QR code library is loaded (e.g., from a CDN), it is retrieved securely via HTTPS, and the library does not send or process user input.

7. Children's Privacy

Our extension does not collect or process any data from children or adults alike. It is safe for all age groups.

8. Changes to This Policy

We may update this Privacy Policy from time to time to reflect improvements or compliance changes. Any updates will be posted on this page with a new "Last Updated" date.

9. Contact

If you have any questions or concerns about this Privacy Policy or the operation of QR Code Generator Pro, you can contact us at:
