

Gun Rounds Privacy Policy

Gun Rounds collects no personal information or any other user data while using the application.

We do not collect, use, save, or have access to any personal information or any other user data through Gun Rounds for iOS, Mac, PC, or Android.

The only information stored by the Gun Rounds app is individual users' settings (such as muting in-app music, turning the tutorial on/off, etc.).

Individual settings relating to the Gun Rounds apps are not personal, and are only stored locally on users' devices. We will not in any way have access to this information, or any other information such as users' device settings or information.
