PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of hands-on experience building responsive and scalable web applications. Skilled in front-end and back-end development, API integration, database management, and modern web technologies. Experienced in developing user-focused digital solutions with strong attention to performance and functionality.

Passionate about software engineering, problem-solving, and continuous learning. Strong understanding of responsive web design, debugging, version control, and collaborative development workflows. Adaptable, self-motivated, and able to work effectively in fast-paced environments.

PROFESSIONAL EXPERIENCE

Youth Employment Agency (Internship)

Full Stack Developer Intern

January 2025 – March 2025

- Developed responsive web applications using React, JavaScript, HTML, CSS, and Tailwind CSS.
- Developed a full-stack Farm Management System.
- Built responsive front-end interfaces and integrated backend services for efficient data management and system functionality.
- Implemented Firebase services for authentication and database operations.
- Participated in debugging, testing, and improving application performance and responsiveness.
- Used Git and GitHub for version control and collaborative development.

SANTUS FARMS

Full Stack Developer - Contract

March 2026 - May 2026

- Developed a Farm Management System to support efficient management of farm operations, records, inventory, and workflow processes.
- Built responsive and interactive user interfaces with strong focus on usability, accessibility, and modern web design principles.
- Integrated backend services, authentication systems, APIs, and database functionality to support application performance and data processing.
- Implemented debugging, testing, and performance optimization techniques to improve system reliability and scalability.
- Collaborated with stakeholders to understand project requirements and deliver efficient digital solutions within project timelines.
- Applied version control and collaborative development workflows to manage updates and maintain project consistency.
- Enhanced overall user experience through clean interface design and responsive application structure.

African University College of Communications

Full Stack Developer - Contract

February 2026 - May 2026

- Developed a full-stack Fake News Detection Application designed to analyze and identify misleading or false information from user-submitted content.
- Built responsive and interactive user interfaces with a strong focus on usability, accessibility, and modern web design principles.
- Integrated backend services, authentication systems, APIs, and database functionality to support application performance and data processing.

- Implemented debugging, testing, and performance optimization techniques to improve system reliability and scalability.
- Collaborated with stakeholders to understand project requirements and deliver efficient digital solutions within project timelines.
- Applied version control and collaborative development workflows to manage updates and maintain project consistency.
- Enhanced overall user experience through clean interface design and responsive application structure.

PROJECTS

- **FakeNews Detection App** - Fake News Detection App – Built a scalable full-stack application using React.js, Node.js/Express, and Django (Python), with Supabase for database and authentication. Designed a responsive UI with TailwindCSS. [CheckDEM](#)
- **Furniture Website** - Farm Management System – Built a full-stack farm management application using React.js, Node.js/Express, and FireBase, with a responsive UI powered by TailwindCSS. . [Santus Farms](#)
- **Inventory Management System** - Designed and developed with Reactjs,tailwindcss and Firebase [Inventory](#)
- **Couple Travel Planner**- Designed and developed with React,Tailwind css [Travel Planner](#)
- E-commerce Website - Developed and designed an e-commerce Website with Html,tailwind css,Firestore. [Swift Mart](#)

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript, Tailwind CSS,React,FIREBASE
- Adobe Photoshop, Adobe Illustrator, Corel Draw
- Git, GitHub & Visual Studio Code
- Microsoft Office Suite (Word, Excel, Powerpoint)
- Debugging, Version Control.

SOFT SKILLS

- Strong Communication

- Analytical Thinking
- Creative Problem-Solving
- Time Management & Prioritisation
- Attention to Detail & Organisation
- Adaptable in Fast-Paced Environments
- Team Collaboration & Remote Workflow Efficiency

EDUCATION

Codetrain Africa

Full Stack Development 2025 - 2027

Key Modules: Front-End Development, Back-End Development, Databases, JavaScript, Responsive Web Design, Problem-Solving, Version Control (Git/GitHub), Project Management,

CERTIFICATE & TRAINING

- **Graphic Design Training** - Premier InfoTech Solutions 2023

Key Module : Design Principles (Typography, Color Theory, Layout), Branding & Visual Communication, Digital Tools (Photoshop, Illustrator)
