NOTES FOR EDITOR:

Nairobi Design Week is a community design studio and annual festival. We work on client briefs and our own initiatives, all of which showcase the value of design and creativity.

Talent from the community is involved in the festival and all of our studio projects. We bring in people and partners to strengthen each other through collaboration.

We host the Afrika Design Podcast, where some of Africa's top creatives share their stories.

Since 50+ creatives made the '[Labelled Human](#)' song & music video at Nairobi Design Week 2020, we've learned a lot about what it takes to bring people together online.

For further enquiries, please contact the team on sasa@nairobidesignweek.com or Adrian on +254 701 021 232.

Partners include ArtsThread, World Design Weeks and Open Design Afrika.
