

LESSON PLAN

Week of: April 13th - April 17th

Class: Computer Applications

Lesson Activities

*** You need to email me at the end of the week letting me know what you have turned in and/or what you've been working on.

*** Keep in mind, when I log in to Typing.com, I can see how many minutes a week you are spending on it.

Objective/Goal:

Our goal is to increase our typing speed along with our knowledge and use of Google Docs, Sheets, Slides, and Forms.

Activity/Outline:

I want you to spend 35 minutes on activities for my class each day. For the first 10 minutes, I want you to go to Typing.com and increase your WPM. For the next 25 minutes, continue working in Google Classroom on the current project you have.
