# Earlsburn Wind Farm Extension

Further Environmental Information (FEI) Report

Volume 3a: Figures

663544

FEBRUARY 2025

**RSK**

# RSK GENERAL NOTES

---

**Project No.:** G/P/663544(G)/09/03/FEI/02

**Title:** Earlsburn Wind Farm Extension: Further Environmental Information (FEI) Report  
Volume 3a: Figures

**Client:** Naturalis Energy Development Limited

**Date:** February 2025

**Office:** Glasgow

**Status:** FINAL

<b>Author</b>	<u>Lewis Gourlay</u>	<b>Technical reviewer</b>	<u>Joe Somerville</u>
Date:	<u>24/01/2025</u>	Date:	<u>24/01/2025</u>

<b>Project manager</b>	<u>Adam Paterson</u>
Date:	<u>07/02/2025</u>

# CONTENTS

---

## **Chapter 1 - Introduction**

Updated Figure 1.1: Site Location

Updated Figure 1.2: Application Boundary

Updated Figure 1.3: Site Aerial Context

## **Chapter 3 – Site Selection and Design Evolution**

Updated Figure 3.1: Environmental Considerations

New Figure 3.4: Design Iteration from Environmental Impact Assessment Report to Further Environmental Information

## **Chapter 4 – Project Description**

Updated Figure 4.1: Site Layout Plan

Updated Figure 4.2: Indicative Turbine Elevation

Updated Figure 4.4: Indicative Turbine Foundation

Updated Figure 4.5: Indicative Crane Hardstanding

Updated Figure 4.11: Indicative Battery Energy Storage Facility

New Figure 4.12: Indicative Switching Station

New Figure 4.13a-c: GDL Crossing – Option C Detailed Swept Path

## **Chapter 6 – Landscape and Visual Impact Assessment**

New Figure 6.1: Bareground Zone of Theoretical Visibility (ZTV)

New Figure 6.2: ZTV including screening by woodland and settlement

New Figure 6.3: Comparative ZTV

New Figure 6.4: Topography and Landcover

New Figure 6.5: Landscape Character

New Figure 6.6: Landscape Character with visibility

New Figure 6.7: Visual Receptors

Naturalis Energy Development Limited

Earlsburn Wind Farm Extension: Volume 3a: Figures

663544

New Figure 6.8: Cumulative Developments

New Figure 6.9: Cumulative ZTV – operational and consented wind farms

New Figure 6.10: Cumulative ZTV – wind farms in planning

## **Chapter 7 – Ecology**

Updated Figure 7.1: Ecological Survey Areas

Updated Figure 7.2: Nature Heritage Designated Sites

Updated Figure 7.3a: Phase 1 Habitats – Site Access

Updated Figure 7.3b: Phase 1 Habitats – Site

Updated Figure 7.4a-g: National Vegetation Classification – Site Access

Updated Figure 7.5a: Protected Species Survey Results – Site Access

Updated Figure 7.5b: Protected Species Survey Results – Site

Updated Figure 7.6: Bat Activity Survey Results

Updated Figure 7.7: Indicative Habitat Enhancement Areas

## **Chapter 8 – Ornithology**

New Figure 8.2: Bird Collision Risk Model Results

## **Chapter 9 – Geology, Hydrogeology, Hydrology and Peat**

Updated Figure 9.3: Peat Depth

## **Chapter 11 – Traffic and Transport**

Updated Figure 11.4: Peak Construction Trip Generation

New Figure 11.5: Non-abnormal Load Construction Traffic Route

## **Chapter 12 – Noise and Vibration**

New Figure 12.1: Map showing layout of the Proposed Development and Surrounding Area.

## **Chapter 14 – Socio-economics, Recreation, Tourism and Land use**

Updated Figure 14.1: Socio-economic Receptors
